County Superintendents, August, 1894, to January, 1898	845
Table exhibiting census, financial condition, per capita, etc., since 1860 . .	848

COMMON SCHOOL REPORT.

GENERAL OBSERVATIONS.

What the Law Requires.—Sections 27 and 28, Common School Law, provide that the Superintendent of Public Instruction shall report biennially, on or before the meeting of the General Assembly, on the following points:]

1. The condition, progress and prospects of the Common Schools.

2. The amount and condition of the school fund.

3. How its revenues for the two previous years have been distributed.

4. The amount produced and disbursed for Common School purposes from local taxation or other sources, and how and for what the same was expended.

5. An abstract of the county superintendents's reports, the practical working of the Common School system of the State, with suggestions as to any alterations it may require.

6. Such other facts, statistics and information as may be deemed of interest to be known.

7. The objects, methods of admission, and other general information concerning the institutions for the blind, the deaf and dumb, and the feeble-minded.

Character of the Present School Law.—In considering the “condition, progress and prospects of the Common Schools,” it may be remarked that the present law is what it purports to be, “An act to establish and maintain throughout the State of Kentucky a uniform system of Common Schools in accordance

with the Constitution." Under its express and constructive provisions an organization is assured that will be not only symmetrical and consistent, but adapted to present needs and promotive of normal development. It will operate to increase interest; to provoke discussion; to give shape to plans that depend for both conception and execution upon the spirit of the people and the activity of their local authorities; to a more intelligent appreciation of popular education and a juster estimate of the means provided by the State, leading to a wise and efficient use of such means, and to real progress on all educational lines. It is not asserted that the code is faultless as far as it goes, or that nothing more in the way of legislative enactment is essential to the attainment of the greatest possible benefit from the public system, but, as intimated above, the effect of what we have will induce activities that will bring about naturally such legislation as will remove obstructions and create new forces.

What the Public School System Comprises.—The Common School System of Kentucky embraces, in its largest sense, not only the city and district schools reporting directly to the Superintendent of Public Instruction and receiving their proportion of the State Fund on his warrants, but the charitable institutions supported by the State, which he is required to report biennially, and the two schools which stand at the head of the Common Schools for the children of the two races respectively, and which are supported in part by the State, namely, the Agricultural and Mechanical College, at Lexington, and the State Normal School for Colored Persons, at Frankfort. It has been customary for the reports of these latter also to constitute a part of the Biennial Report of this office, and they are embraced in this work. These reports need no elaborate notice here, as they set forth with clearness and particularity the character and condition of these leading and important institutions, and the great opportunities which they offer to the young men and women of the Commonwealth, to whom the range of instruction is wide, the tuition free, and the cost of living reduced to the minimum. From them our teaching force receives annually many recruits, well-instructed, well-

disciplined, and having that special training in pedagogics which is coming more and more to be demanded.

It will be noted that the Agricultural and Mechanical College, or the State College, as it is more familiarly known, partakes largely of the character of the best modern universities, to which rank it must eventually attain, and to whose various departments or colleges the young people of the Commonwealth may confidently look for superior training, in both general and special lines.

Under the Constitution, requiring the classification of our cities, the General Assembly of 1891-92-93 provided for six classes, with a charter for the government of each class; and the charters of the first four classes have special provisions for public schools, the other two falling under those of the general school laws. The reports of these follow in order those of the State schools, each embracing the facts relative to both their white and their colored schools.

1. Cities having public school provisions in their charters are: (a) Of the first class, one; (b) second class, three; (c) third class, five; (d) fourth class, twenty-three. Many of these are reported herein. Some are not yet organized under the new provisions.

2. In cities and counties the public schools number between eight and nine thousand under the local supervision of city and county superintendents.

3. The teachers employed in these schools, regularly and occasionally, number approximately nine thousand five hundred.

School Funds Annually Disbursed—Increase of Per Capita, Etc.—The average annual State Fund disbursed in cities and counties for the two years ended June 30, 1895, was \$2,043,996.

At the close of Smith's administration, in 1871, the per capita had increased from 72 cents, at which he found it, in 1867, to \$2, although nearly 35,000 had been added to the census returns during the four years. The 15 cent tax which he had succeeded in obtaining for these schools was now beginning to be realized; but owing to shifting conditions, the per capita was for the next eleven years variable, sometimes falling below \$2 (white and colored added), till in 1883, when as full provision

for the education of the colored children as for the whites was made—the per capita being equalized. It then stood at \$1.30. From that time until 1891 there was an almost constant yearly increase of ten or fifteen cents. For the two years ended June 30, 1893, the increase averaged thirty cents annually, owing for the most part to conditions noted above.

For the two years covered by this report, June 30, 1893, to June 30, 1895, there was a slight decrease, owing to reduction of tax rate made by the Legislature of 1891–92–93, and to a largely increased census return. The remarkable increase of per capita during the past twenty-four years will be more striking if considered in connection with the fact that the census returns of 1871 showed but 389,836 pupil children, while those of 1893 reached 706,288, an increase of 316,452, or nearly 45 per cent. The present State Fund would have given to the pupil children of 1871 more than \$7 each. The State Fund for that year, though almost double that of 1869, would have given for the present year, 1893–94, a per capita of \$1.09, or 28 per cent. of what it is. From all this it will be seen that the resources of the School Fund have much more than kept pace with the growing population and immensely larger returns of pupil children.

Character of the System.—Having given some of the more ostensible facts as to condition and progress, let us glance briefly at the system as it is shown to exist:

Apparently much, indeed most, of what the active friends of popular education have been contending for as to organization and State aid has been secured. The system is so comprehensive and symmetrical as to present the appearance of having that close organic connection of schools of all grades, from that of the ordinary district to the State College, for which the Swiss plan is so much commended. Harmonious working is assured; and so liberal are its provisions that it not only places within the reach of every child a common school education, but contemplates graded free schools in every county, which shall afford to all within their districts higher and more thorough training, and give to those in districts not so favored this opportunity at the smallest reasonable cost, schools supplying the place of what has been much insisted on, a central high school for cer-

tain prescribed territory. In the cities, excellent organizations are established and maintained in part by the State, in part by municipal tax, that give adequate instruction, generally for ten months in the year, through all the grades from kindergarten beginning to preparation for college. As far as organization is concerned, it is good, and has in itself the capacity of adjustment to growing needs ; and it will be found sufficient when the people breathe into every member of it that may now seem sluggish that breath of life which gives an added importance, activity and tone to whatever Kentuckians consider distinctively their own.

When we look at existing conditions, and note the instrumentalities at work, the influence of which must be healthful and the results cumulative, we find much to give hope and confidence. It is iterated and reiterated, from year to year, that even wholesome laws and excellent organization depend for execution and effectiveness upon an enlightened (and, in a measure, organized) public sentiment. The late Constitutional Convention and the Legislatures that have met in biennial session may be cited as evidences that public sentiment is not at fault on the great question of educating the masses. The law makers may be presumed to reflect the sentiment of the people from whose ranks, and from daily contact with whom, they come. A review of the work of the Convention, and of the General Assembly from time to time, with a just estimate of the spirit manifested, will show that conservative but still progressive measures in educational matters are not only favored, but favored in such a marked degree that opposition is reduced to the minimum, and scarcely commands attention. That conservatism which is hesitant, and not infrequently seems lagging behind an awakened and expectant constituency, has not been found in Kentucky to cause loss of ground, however much it may delay movements that seem essential ; if our growth has been slow, it has at least been sound ; and whatever disaffection as to the efficiency of the system of public schools may be found is but the precursor of agitation that is to result in advance, not destruction—not even injury.

I think it well to repeat here what was said in my previous

Biennial Report of some of the important enactments of the General Assembly of 1891-92-93:

I. Uniform Term Provided For.—Of new conditions already established and in process of establishment may be mentioned that which insures to every district at least a five-month school, and makes good the claim put forth in the enacting clause of the law. It puts away that injustice which has long been perpetrated upon thousands of children in the State—the curtailing of their school term one and two months because they were unfortunately resident of small districts.

II. Grading the Schools.—Another, and one that will eventuate in benefits hardly to be established, is that mandatory provision of the Act of July 6, 1893, requiring the grading of all the public schools. The State Board of Education anticipating this, had formulated a systematic course of study, with suggestive daily programme of study and recitation, and a one-year Register corresponding, to supply temporarily the place of the four-year Grade Book now required by law. With the opening of the schools for the year 1893-94, some thousands of teachers evinced their intelligence, their sense of obligation to execute the law, and a true teacher's genuine appreciation of the importance of the step, by reducing to practice the plan outlined. The schools have thus, at this writing, begun their transformation from a species of chaos to order; from haphazard to system; from the reign of whim (that make a hobby of grammar or arithmetic or geography, and consigned to almost utter neglect the other branches) to methodical attention to every subject and consequent symmetrical training; from the necessity of beginning the school every year without the chart and compass that only the preceding year's record and results could furnish; from shilly-shally to steadiness and continuity—in short, from a no-classification system that induced bad habits of study, and brought poor results in the way of teaching and training, to one that will at least insure to every child his due meed of attention; to every branch its modicum of time, and to every school the indispensable educative influence of orderly proceeding. The enforcement of this law will have a most potent effect in improving the teaching force of the State—not alone by enabling the

worthy and capable to recommend themselves by achieving far better result, but by disposing of two classes of bad workmen. The incompetents can not properly grade a school and maintain it in that condition, even were it possible for the State Board to provide a scheme, which ought to be followed to the letter under all circumstances. The power of acting judiciously on a suggestion and taking into account such circumstances as forbid a literal adherence to the model is wanting to the undisciplined mind. Those who are "wiser in their own conceit than seven men who can render a reason" will not try. Under the law, the places of these two orders of teachers will soon be forfeit.

III. County Teachers' Association.—Section 146 of the School Law makes this association a distinct part of the county organization, with obligations of meeting, discussion, etc., and it must prove a very valuable factor in the advancement of educational interests. Not only will teachers profit by these meetings, and so improve their work, but the people will be led by them to understand the relative value of those in charge of their schools, as evinced by their fidelity to the duty enjoined by law, and the spirit and ability manifested in dealing with the questions to be considered. If so conducted as to bring the citizens of the respective communities together, a widespread interest in all matters pertaining to schools will result, and questions of needs and ways and means will be discussed everywhere. For getting the attention of the people and enlisting their active support, no better means could be devised.

Another step in the interests of progress must not be overlooked. Sections 148 and 149 provide that each county shall have

IV. A Teachers' Library.—Under a system like ours, where it is the exception and not the rule for the county schools to be supplied with trained teachers, this is especially important. A County Library, judiciously selected, will be a valuable depository of knowledge and culture to those who have the spirit of their calling, but whose means are limited; and it will furnish a touchstone by which county boards and parents may discover those in whom is no thirst of knowledge and no ambition to do well the work which they propose to take upon themselves.

V. *Kindergarten Work and Manual Training*.—A most significant indication that our teachers and school officers are so progressive as to be studious of principles and methods, and wisely cognizant of the demands of the times, is the ever increasing attention paid to kindergarten and manual training work. Note the reports from cities, and you will find that these features are being introduced into the public schools, equipment provided, and very admirable work done. In the true kindergarten are found rational beginnings in both mind and hand training; and the manual training schools and departments of schools supplement the ordinary course by imparting a knowledge of materials, cultivating a sense of proportion and symmetry, and giving an acquaintance with tools with a certain skill in handling them, all of which is not only in a high degree educative, but may prove of immense practical value to even others than those who choose the vocation of a handicraftsman. It is, of course, impracticable to introduce these distinctive features into the common district schools where the teaching force is limited, as a rule, to one person; but in most city schools, and those graded free schools provided for in sections 100 to 130, School Law, the plan is feasible, and it would give to them very marked additional importance.

While much is to be said, and vastly more to be done, in the matter of training men and women for the vocation of teacher, that the State may have always at command ten or twelve thousand efficient professionals to take charge of the vital work of educating her pupil children, I advert briefly to recent legal enactments which tend to the improvement of those who from year to year assume this function, whether temporarily or as a permanent business. These provisions are important, and they may be summarized as follows:

1. The payment of teachers according to grade of certificate.
2. The limiting of third class certificates to a single issue.
3. The requirement that all schools shall be graded.
4. The increasing difficulty in the way of obtaining certificates. The law is exacting, and county boards are growing more and more disposed to rule firmly and justly.
5. The prohibiting of the more immature from obtaining certificates.

body can teach school," and the accompanying misconception of the purpose for which the State contributes to each district a certain amount of money annually. It is evidently looked upon in the light of a bonus for some individual, instead of a means for the teaching and training of all the pupil children, and the question that first suggests itself is: Who shall have it? not, How shall it be used, in order that these children may reap from it the greatest possible benefit? With a view to securing the prize, applicants for the school appear, and a canvass begins for the purpose of electing a trustee whose vote in the board will determine the contest; means are resorted to that ought to shame even an unscrupulous politician; dissensions are engendered that bring evil to the school, by whomsoever secured; and the winner of the five-months' employment and the State's contribution is usually some one akin to the successful candidate for trustee, or, at any rate, one who is a favorite of at least two of the members, and this is not on the ground of intellectual qualification or eminent moral and administrative fitness, but of mere personal preference. To pension upon the State School Fund a host of poor relatives or other needy people who are unfitted to succeed in other callings, is charity run mad. Of course, if kinspeople and needy friends are educated (which implies that they are disciplined), energetic, of exemplary lives, and ambitious to do well whatever they do, their employment is praiseworthy; but the complaint comes from every quarter that this is the exception and not the rule.

It becomes more and more evident year by year that the power to contract with teachers ought to be lodged in a County Board of Education, of which the county superintendent should be chairman, while the immediate oversight of each school should be intrusted to a patron, who is a free-holder in the district. The great responsibility that would devolve upon this board would awaken the whole people of the county to the importance of choosing as members their best men, and the removal of this body as far as possible from special local influence would result, it seems to me, in a thoughtful and more or less impartial consideration of the claims of all applicants and the employment of the fittest. There are now thousands of

good teachers in Kentucky—men and women not only mentally well furnished, but imbued with the spirit of their calling, and the number is slowly but steadily increasing. To them, all honor; but to the teacher “for revenue only,” away with him! And may we soon come to feel that his like shall be known among us no more forever. With a board of capable, conscientious, and public spirited men, to make deliberate choice of the best that offers, there would come that recognition of merit which would encourage the intellectual and ambitious to fit themselves professionally, and the schools would shortly show results for which thoughtful and patriotic citizens have heretofore hardly dared to hope.

I do not venture to give a plan in detail. My object is to indicate a great need, and to leave to the wisdom of the General Assembly the work of formulating one which will be practicable and effective. A scheme of this purport was introduced and ably championed by Senator Salyer in the Legislature of 1894, and that or something similar may now find favor.

II. Teachers' Training Schools.—I need not dwell upon the importance of these. Senator Stewart's bill providing for a vote of the people on the question of levying a half cent tax for the purpose of establishing and maintaining an adequate number, was introduced in the Legislature of 1891-2-3, and again in that of 1894. It was an admirable measure, and was advocated with great ability by gentlemen who had made a diligent study of our educational system, and were deeply impressed with the idea that the best facilities for professional training were demanded by the then existing conditions—were indeed indispensable to the growth and efficiency of the system. Irrefutable argument was met by an *ad captandum* outcry against increased taxation, when the simple proposition was, as the Constitution provides, that the people be allowed to say whether they would tax themselves this additional mite for the purpose of carrying out a great public measure. Clearly fallacious as it was, however, it was sufficient to defeat the bill at both sessions, and Kentucky is thus still lagging behind most of the States in the Union in a matter that is of prime consideration.

The Federal Government early established, and still maintains

at great cost, a school for the professional training of those who are to lead our armies, and another for the making of skillful naval officers. Many States quickly followed this indication of a wise public policy by making preparation for efficiently training, at the general expense, those who were to fashion the minds and characters of their citizens, and thus contribute in the most effective way to the perpetuation of such free institutions as are worth defending; and now these schools constitute what is regarded as an absolutely indispensable feature of their school systems.

I have most respectfully to repeat to your honorable body what I have all the time urged in opposition to those who have opposed the measure under consideration: If the question is submitted to the people, it will be discussed throughout the length and breadth of the Commonwealth, and they will pass upon it intelligently. We can trust the people.

III. County Taxation.—One of the most lamentable defects in our system of popular education is the shortness of the school term. In the strictly rural districts the children are in the common schools twenty weeks annually. There are exceptions; but this is the rule. Even those, then, who are by reason of tender age unfitted to contribute anything to the family support are for thirty-two weeks each year without public instruction. Depending too much upon the State, parents are either indifferent as to continuing the schools by private contribution or unable to do so. Thousands are really financially able.

There is little probability that State taxation for educating the children will ever be increased. It is argued with much plausibility that it ought not to be—that the State's contribution of more than two millions annually discourages local effort. Some States that boast of excellent systems and maintain schools materially longer than ours have a much similar State per capita. They are compelled to resort to local taxation in order to provide for terms of reasonable length. The effect of this is seen in the spirit of their people. They feel that the business of educating their children is chiefly their own, and they take a more lively interest in that which costs them more than the modicum of tax which goes to constitute the revenues of the State. They are more critical in their inquiries as to

the fitness of those teachers for whose salaries they are, in a measure, personally responsible.

The people of each county should provide the means for lengthening the State term at least two months. They will not do this by districts for which provisions are made in the School Law (sections 93 to 99, inclusive.) Local taxation by districts, subject to the will of the people, is a failure. Thousands of districts are unable; many more thousands are unwilling, being satisfied with the State provision. There are many counties in which are no few districts that can not build and furnish a fairly comfortable and commodious school-house by levying a four-year tax to the extreme limit of the law.

There is extreme need, if we would have the State fund accomplish uniform good, that destitute districts have suitable houses, properly furnished, and that every district have at least a six-month term, which should be extended to seven months as soon as it is practicable to do so without a burdensome tax or the employing of cheap and weak teachers.

I can not too earnestly beg of the General Assembly to consider, with more than usual patience and care, the matter of county taxation. The measure for which I ask is not one to impose a tax, but to untie the hands of the people and loosen the tongues of the broad-minded educators and philanthropists that are to be found in every county, who are now dumb, because our law-makers have not yet seen fit to authorize their people to say, in a county capacity, whether they are willing to contribute somewhat to enhancing greatly the value of all their schools, and make it possible for districts that are really financially very weak to receive sufficient supplemental aid to provide such accommodations for their children as will enable them to get the good of the State's contribution. In counties where a tax was formerly voted under special act, a small per cent. was devoted to building and repairing.

Of course it will be long before every county will avail itself of this power; but in the matter of local taxation by vote, the people themselves need educating, and if you confer upon them the power to have the question passed upon in any year, there will be an awakening that will call for investigation and bring about discussion, pro and con, and the consequent agitation will eventuate in benefit to the whole body of our citizens.

We can not too jealously guard our scheme of popular education, nor too earnestly insist that it shall be made thoroughly effective. "Knowledge is power," and in proportion as we fail to vouchsafe to the masses an opportunity for a fair education, we tend to class distinctions, which are odious in a republic. Power is aggressive, though often insensibly so, and the ignorant are weak, though armed with the ballot, so that they are at the mercy of those who are taught, disciplined, and made intellectually strong.

IV. County Examinations.—The foregoing are the amendments and additions on which I especially insist; but there are minor ones that should not be lost sight of. Under the present law there are twelve county examinations yearly. This imposes work upon county superintendents at times when their attention could far more profitably be given to other official duties, and at least four of these are to no good purpose whatever. Besides, they greatly increase the expense which the State Department must incur in sending out questions. The two examinations for applicants for certificates for graduation in a common school may well be left as they are (see section 8, School Law); but the ten examinations of applicants for teachers' certificates should be reduced to six—one of which, for whites, should be held on the third Friday and Saturday in June; the second on the third Friday and Saturday in July, and the third on the third Friday and Saturday in August—the colored examinations coming a week later in each case.

An examination of the law as to manner of sending out packages of printed questions involves an unreasonable expense for postage—the amount required for the seven occasions of supplying every county being annually from four to five hundred dollars. I have to recommend that the law provide for sending these packages to all the counties possible by express. Eighty-seven counties can be expeditiously reached in this way at less than half the amount required for sending all by registered mail.

V. Tax for Incidental Expenses.—Section 80 should be so amended as to tax for the incidental expenses of a school every person in the district having a child or children of school age. To levy this upon those persons only who have children attend-

ing the school is to offer, in many instances, a premium for keeping the children at home.

VI. Central High Schools.—A matter that has long claimed the attention of observant and thoughtful educators is the establishment of a central high school for each county, in order that youth may have an institution within easy reach, and constituting part of the general system of public education, where more advanced instruction can be given than in the ordinary district schools; but I do not deem it prudent to insist upon such a measure now, though I trust that it may be noted, and have that consideration which will cause it to be brought up hereafter under better auspices. If provision is made by this Legislature for a vote of the people on the question of professional training schools and of local taxation by counties, and the trustee system is so essentially changed as to put the districts under the general control of efficient County Boards of Education, an impetus will have been given toward the early attainment of all that is most desirable in other respects.

VII. Payment of Teachers.—The school law provides that three-fifths of the annual salary of teachers be paid by the State before it is at all probable that the State revenues will be paid into the Treasury. This is a matter that should be remedied, but recommendations along this line will more properly come from our fiscal officers.

VIII. A Compulsory Law.—There is a constantly growing impression throughout the State that the law should compel pupil children to attend the public schools for a certain number of months annually, say between the ages of eight and fifteen. Making ample allowance for the number of children who receive instructions at private schools, our statistics disclose that thousands are wantonly deprived of the privileges which the State virtually provides at their very doors. In general, those who are most in need of the public benefits are the ones who are withheld by their parents from availing themselves of it. Whatever advancement we make, we leave behind us an element of ignorance and presumably of vice, and very probably of pauperism to be a constant menace to society. I touch upon this matter merely by way of calling attention to a troublesome question. My theory is that if we had a few thousand more

commodious, eligibly situated, and well-furnished school-houses, in charge of thoroughly capable teachers, who realize the absolute importance of educating communities along certain lines, as well as the children, we should soon find non attendance reduced in an astonishing degree. During the last few years there has been much progress in the matter of building and equipping, and the standard of teachers has been raised to a very marked extent. Along with these improvements, the per centage of attendance has steadily increased.

These matters are most respectfully submitted, and some of them I feel it my duty to insist upon with a zeal which has its warrant in a thorough knowledge of our educational system and the immediate needs of our people.

For particulars as to present conditions, I refer you to reports from counties and cities, hereto subjoined. For an understanding of the conditions of our permanent school fund and the revenues derived therefrom, with annual disbursements of these, I ask your special attention to the carefully itemized financial statement.

ED PORTER THOMPSON.

TABULATED REPORTS

—BY—

COUNTIES AND CITIES

—FOR—

1893-94 SCHOOL YEAR ENDED JUNE 30, 1894.

(SEE TABLE OF CONTENTS)

TABULATED REPORT BY COUNTIES FOR SCHOOL YEAR ENDED JUNE 30, 1894.

NOTE.—It will be observed that a few of the counties have not reported at all for this year, while many of them have failed to report certain items.

SUMMARY OF SCHOOL STATISTICS (COUNTIES) FOR SCHOOL YEAR ENDED JUNE 30, 1894.

NOTE.—Observe that thirteen counties failed to report for this year, and that this summary, made up from the preceding tables, is, to that extent, only approximately correct.

I. DISTRICTS.			
	White.	Colored.	Total.
Number of districts in the State	6,886	1,087	7,973
Number in which schools were taught for five months	6,336	987	7,323
Number in which schools were taught for more than five months	518	99	617
Number of Graded Common Schools in the State	76	16	92
Number of districts having school libraries	72	8	75
Value of said libraries	\$3,269.98	\$30.00	\$3,299.98
Number of volumes added during the year	361	..	361
II. SCHOOL HOUSES, FURNITURE, ETC.			
Number of common school-houses in the State—			
1. Log	2,000	317	2,317
2. Frame	4,729	610	5,339
3. Brick and stone	119	14	133
Total school-houses	6,848	941	7,789
Number of school rooms	7,432	1,025	8,457
Total seating capacity of school-houses in the State	397,757	58,397	456,154
Number of school-houses in good condition	4,664	521	5,185
Number furnished with suitable desks, seats, blackboards, etc.	3,724	330	4,054
Number furnished with globes, maps, charts, etc.	2,067	252	2,319
Number of school-houses built during the year	447	67	514
Number repaired during the year	1,076	157	1,233

III. PRIVATE SCHOOLS, COLLEGES, ETC.

Number of Academies and High Schools in the State	196	11	207
Approximate number of teachers in same	553	20	573
Approximate number of pupils in same	13,794	574	14,368
Number of Normal Training Schools in the State	53	7	60
Approximate number of teachers	96	13	109
Approximate number of pupils	2,606	260	2,866
Number of Colleges in the State	60	2	62
Approximate number of teachers	474	16	490
Approximate number of pupils	6,419	222	6,641

SUMMARY OF SCHOOL STATISTICS—Continued.

IV. PUPILS.

	WHITE.			COLORED.		
	Male.	Female.	Total.	Male.	Female.	Total.
Number in census report.	305,084	292,514	597,598	47,107	46,284	93,391
Number enrolled in school.	182,433	169,371	351,804	36,107	37,274	73,381
Number over 18 years old when enrolled.	7,690	5,572	13,262	826	949	1,776
Number over 10 years unable to read and write when enrolled.	6,100	5,235	11,335	1,741	1,510	3,252
Average attendance at school.	108,010	104,139	212,149	15,834	17,146	33,379
Number of pay pupils attending school.	2,310	1,858	4,168	212	163	375
Number enrolled in Primary Grade.	37,325	33,162	70,478	5,966	5,952	11,918
Number enrolled in Grade I.	29,758	26,100	55,858	4,604	4,842	9,446
Number enrolled in Grade II.	25,841	23,169	49,010	4,185	4,141	8,326
Number enrolled in Grade III.	25,365	23,962	49,327	3,374	3,658	7,032
Number enrolled in Grade IV.	25,873	25,073	51,312	2,773	3,189	5,962
Number enrolled in Grade V.	20,048	19,726	39,774	1,577	2,035	3,612
Number that received certificate of graduation.	54	74	128	22	27	49
Percentage of attendance based on census.	35	35½
Percentage of attendance based on enrollment.	60	45½
V. TEACHERS.						
Number who taught in common schools during the year.	3,772	3,526	7,298	458	569	1,027
Number who hold State Diploma.	2	2
Number who hold State Certificate.	19	7	26
Number who hold County Certificate of First Class.	1,973	1,450	3,423	217	136	353
Number who hold County Certificate of Second Class.	1,651	1,472	3,135	194	276	470
Number who hold County Certificate of Third Class.	723	690	1,412	128	243	371
Number who taught during the year for the first time.	451	495	946	45	121	166
Number of teachers who are graduates of Normal Training Schools.	130	93	223	26	23	49
Average monthly wages of teachers.	\$41.68	\$35.80	\$38.44	\$41.44	\$32.24	\$36.84
Number of teachers attending the County Institute.	3,358	3,175	6,533	414	470	884
Number of teachers enrolled as members of the County Teachers' Association.	2,034	1,733	3,767	191	204	395
Number of teachers enrolled as members of Reading Circle.	530	328	858	38	52	80

VII—FINANCIAL STATEMENT.

MONEY RECEIVED, ETC.		White.	Colored.	Total.
Amount on hand from last year.		\$5,878	\$564	\$6,442
From State Treasury, embracing per capita, interest on county bonds, and second-year fund.		1,668,374	324,781	1,993,155
From counties, including salaries and expenses of County Superintendents.		81,226	3,601	84,827
From County Institute Fees from teachers.		8,034	890	8,924
From the District	Taxes voted for teachers' salaries.	31,043	499	31,542
	Taxes levied by trustees for purchase of lots, and for repairing, building, furnishing, etc..	157,766	7,066	164,832

EPISTOLARY AND

STATISTICAL REPORTS,

—BY COUNTIES,—

—FOR—

SCHOOL YEAR ENDED JUNE 30TH, 1895.

ADAIR COUNTY.

L. L. MURRELL, Superintendent.

It is impossible to make up a thoroughly accurate and reliable report from the returns brought in by trustees. Some teachers, too, are careless and immethodical, and this increases the difficulty.

A comparison of the following statistical report with that for the previous year will show that there has been some improvement and some progress, and there are evidences that the people are taking more and more interest in their schools.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	73	COLORED . .	13	Total	86
-----------	----	-------------	----	---------------	----

Number in which schools were taught for 5 months:

WHITE	72	COLORED . .	13	Total	85
-----------------	----	-------------	----	---------------	----

Number in which schools were taught for more than 5 months:

WHITE . .	1	COLORED . .		Total	1
-----------	---	-------------	--	---------------	---

Number of graded common schools in the county:

WHITE . .		COLORED . .		Total . .	
-----------	--	-------------	--	-----------	--

II—School-houses and Furniture.

Log . . WHITE . .	17	COLORED . .	8	Total . .	25
-------------------	----	-------------	---	-----------	----

Frame . .	53	“	5	“	58
-----------	----	---	---	---	----

Brick . .	2	“		“	2
-----------	---	---	--	---	---

Stone . .		“		“	
-----------	--	---	--	---	--

Value of all school-houses and grounds in county:

WHITE . .	\$13,140	COLORED . .	\$860	Total . .	\$14,000
-----------	----------	-------------	-------	-----------	----------

Value of all furniture, apparatus, etc., in county:

WHITE . .	\$325,275	COLORED . .	266	Total . .	351,875
-----------	-----------	-------------	-----	-----------	---------

Number of school-rooms:				
WHITE . .	75	COLORED . .	13	Total . . 88
Total seating capacity of school-houses in the county:				
WHITE . .	4,246	COLORED . .	687	Total . . 4,933
Number of school-houses in good condition:				
WHITE . .	52	COLORED . .	3	Total . . 55
Number furnished with suitable desks, seats, blackboards, etc.:				
WHITE . .	41	COLORED . .	3	Total . . 44
Number furnished with globes, maps, charts, etc.:				
WHITE . .	24	COLORED . .	4	Total . . 28
Number of school-houses built during the year:				
WHITE . .	7	COLORED . .	2	Total . . 9
Number repaired during the year:				
WHITE . .	30	COLORED . .	4	Total . . 34

III—Private Schools, Colleges, etc.

Number of academies and high schools in county:				
WHITE . .	2	COLORED . .		Total . . 2
Approximate number of teachers in same:				
WHITE . .	6	COLORED . .		Total . . 6
Approximate number of pupils in same:				
WHITE . .	125	COLORED . .		Total . . 125
Number of normal training schools in county:				
WHITE . .	3	COLORED . .	1	Total . . 4
Approximate number of teachers:				
WHITE . .	3	COLORED . .	3	Total . . 6
Approximate number of pupils:				
WHITE . .	60	COLORED . .	40	Total . . 100
Number of colleges in county.				
Approximate number of teachers.				
Approximate number of pupils.				
Number of pupils taught in the county outside of the public schools:				
WHITE . .	100	COLORED . .	4	Total . . 140

IV—Libraries—County and District.

Amount of money received into library fund:				
WHITE . .	\$44 05	COLORED . .		Total . . \$44 05
Amount of money expended for books, etc.:				
WHITE . .	\$26 00	COLORED . .		Total . . \$26 00
Whole number of books belonging to library:				
WHITE . .	30	COLORED . .		Total . . 30
Increase during the year:				
WHITE . .	5	COLORED . .		Total . . 5
Value of said county library:				
WHITE . .	\$30 00	COLORED . .		Total . . \$30 00

V—County Superintendent.

Number of schools visited:

WHITE . .	73	COLORED . .	13	Total . .	86
-----------	----	-------------	----	-----------	----

Number educational meetings held Number addresses delivered

Number years he has served as County Superintendent 1

Salary . . . \$720 Amount allowed for expenses . . . \$. . Total . . . \$720

Name and address of Institute Conductor—White—R. W. Roark.

Name and address of Institute Conductor—Colored—J. E. Wood.

VI—Pupils.

Number in census report:

WHITE—Male . . .	2,123	Female . .	2,043	Total . . .	4,166
COLORED—Male . .	361	Female . .	379	Total . . .	740

Number enrolled in school:

WHITE—Male . . .	1,519	Female . .	1,802	Total . . .	3,321
COLORED—Male . .	278	Female . .	303	Total . . .	581

Number over 18 years old when enrolled:

WHITE—Male . . .	48	Female . .	67	Total . . .	115
COLORED—Male . .	7	Female . .	11	Total . . .	18

Number over 10 years old unable to read and write when enrolled:

WHITE—Male . . .	39	Female . .	36	Total . . .	75
COLORED—Male . .	19	Female . .	20	Total . . .	39

Average attendance at school:

WHITE—Male . . .	902	Female . .	991	Total . . .	1,893
COLORED—Male . .	106	Female . .	186	Total . . .	292

Number of pay pupils attending school:

WHITE—Male . . .	18	Female . .	23	Total . . .	41
COLORED—Male . .	5	Female . .	4	Total . . .	9

Number enrolled in Primary Grade:

WHITE—Male . . .	481	Female . .	352	Total . . .	833
COLORED—Male . .	91	Female . .	82	Total . . .	173

Number enrolled in Grade I:

WHITE—Male . . .	323	Female . .	344	Total . . .	667
COLORED—Male . .	43	Female . .	39	Total . . .	82

Number enrolled in Grade II:

WHITE—Male . . .	235	Female . .	271	Total . . .	506
COLORED—Male . .	37	Female . .	33	Total . . .	70

Number enrolled in Grade III:

WHITE—Male . . .	230	Female . .	259	Total . . .	489
COLORED—Male . .	41	Female . .	48	Total . . .	89

Number enrolled in Grade IV:

WHITE—Male . . .	314	Female . .	263	Total . . .	577
COLORED—Male . .	42	Female . .	68	Total . . .	110

Number enrolled in Grade V:

WHITE—Male . . .	178	Female . .	171	Total . . .	349
COLORED—Male . .	18	Female . .	39	Total . . .	57

Number that received certificates of graduation :

WHITE—Male . . .	Female . .	Total . . .
COLORED—Male . .	Female . .	Total . . .

Percentage of attendance, based on census :

WHITE—Male . . .	42+	Female . .	43.6	Total . . .
COLORED—Male . .	15—	Female . .	25+	Total . . .

Percentage of attendance, based on enrollment :

WHITE—Male . . .	59+	Female . .	55	Total . . .
COLORED—Male . .	19+	Female . .	32—	Total . . .

Total cost of teaching each child, based on average attendance :

WHITE—Male . . .	Female . .	Total . . .	\$7.21+
COLORED—Male . .	Female . .	Total . . .	7.32+

VII—Teachers.

Number who taught in the common schools during the year:

WHITE—Male . . .	26	Female . .	47	Total . . .	73
COLORED—Male . .	4	Female . .	9	Total . . .	13

Number who hold State diploma :

WHITE—Male . . .	Female . .	Total . . .
COLORED—Male . .	Female . .	Total . . .

Number who hold State certificate :

WHITE—Male . . .	Female . .	Total . . .
COLORED—Male . .	Female . .	Total . . .

Number who hold county certificate of first class :

WHITE—Male . . .	24	Female . .	18	Total . . .	42
COLORED—Male . .	2	Female . .	1	Total . . .	3

Number who hold county certificate of second class :

WHITE—Male . . .	14	Female . .	15	Total . . .	29
COLORED—Male . .	2	Female . .	6	Total . . .	8

Number who hold county certificate of the third class :

WHITE—Male . . .	7	Female . .	6	Total . . .	13
COLORED—Male . .	1	Female . .	4	Total . . .	5

Number who taught during the year for the first time :

WHITE—Male . . .	2	Female . .	5	Total . . .	7
COLORED—Male . .		Female . .		Total . . .	

Number of teachers who are graduates of Normal Training Schools :

WHITE—Male . . .	Female . .	Total . . .
COLORED—Male . .	Female . .	Total . . .

Average monthly wages of teachers :

WHITE—Male . . .	\$35.43	Female . .	\$29.45	Total . . .	\$64.88
COLORED—Male . .	46.03	Female . .	26.80	Total . . .	72.89

Number of teachers attending the County Institute :

WHITE—Male . . .	32	Female . .	41	Total . . .	73
COLORED—Male . .	5	Female . .	10	Total . . .	15

Number of teachers enrolled as members of the County Teachers' Association :

WHITE—Male . . .	Female . .	Total . . .
COLORED—Male . .	Female . .	Total . . .

Number of teachers enrolled as members of Reading Circle:

WHITE—Male . . .	11	Female . . .	6	Total . . .	17
COLORED—Male . .		Female . .		Total . . .	

Number of teachers completing Reading Circle Course:

WHITE—Male . . .	4	Female . .	2	Total . . .	6
COLORED—Male . .		Female . .		Total . . .	

Number of meetings held by the County Association during the year:

WHITE—Male . . .		Female . .		Total . . .	
COLORED—Male . .		Female . .		Total . . .	

I—Financial Statement.

Money received—

From State Treasury, embracing per capita, interest on county bonds, and second-year fund:

Total . . .	\$16,445 35		\$2,321 71		\$1,757 06
-------------	-------------	--	------------	--	------------

ALLEN COUNTY.

W. E. TAYLOR, Superintendent.

It gives me pleasure to report to you that the Common Schools of Allen County, are improving rapidly in every thing that constitutes successful school work.

We have efficient teachers, faithful trustees, interested parents, and good, industrious, studious pupils.

I earnestly recommend the enactment of the following laws:

1. Some compensation for trustees, at least for the chairman.
2. That graduates in the common schools be allowed to teach one term without further examination.
3. That teachers can not contract with trustees to teach more than five months for the public money.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	64	COLORED . .	12	Total . .	76

ANDERSON COUNTY.

W. D. MOORE, Superintendent.

I am now about half-way through visiting the schools for the year ending June 30, 1896. Last year the average attendance was 42 per cent., and I have been trying to reach 50 per cent. this year, but I am afraid I shall fail because of the continued dry weather and so much sickness. One great drawback to our public school system is, the want of regular attendance. Another is, that so many parents are unreasonably opposed to their children's being corrected. We are gradually making improvements in our houses and furniture. I think our teachers are up to date in preparing themselves for the work. No less than thirty attended school last winter, especially for the purpose of training themselves for teaching. In one school-house, District No. 29, the teachers, and those preparing to teach, to the number of perhaps twenty, assembled day after day for three months, having, as an instructor, a college gradu-

ate. I commend this plan. It comes cheaper, and others in the district can take advantage of the thorough instruction.

Our graded school at Lawrenceburg, established by the advice and assistance of our State Superintendent, is proving a grand success.

It is now on a solid basis, and is destined to be an educational power in this county.

Our teachers take considerable interest in our county library, and it is growing as rapidly as the funds allowed by law will permit,

I am urging the teachers to prepare for State certificates and diplomas, and think several more will try for the former in the near future, four having already taken it.

I introduced this year, a Trustee Day in our Institute, inviting all the trustees of the county, and had addresses delivered for them especially. I intend to try it another year, and think it will do much good in getting them to take an interest in the work.

Altogether, we are moving forward in Anderson in educational matters, and look with hopeful anticipation to the time when we shall have a first-class house in every district, well furnished, and occupied *nine* months in the year by *all* the children, taught by a first-class teacher. For this I am working.

BALLARD COUNTY.

W. A. ANDERSON, Superintendent.

I am glad to report that the schools in Ballard county are in excellent condition. Harmony and good will exists among all the teachers and school officers; and they are backed by a hearty co-operation from trustees and patrons. We have none to drive, for there are none to be driven; no cliques, no favoritism, no strife, except that noble strife to find the best methods, and to attain the highest success. Ballard, like many other counties of the State, has been visited by the furniture and apparatus swindlers, who, by fraud and misrepresentation, have sold to the trustees, a lot of trashy and worthless apparatus at exorbitant prices, thereby creating a large district indebtedness, which, in some cases, it will take years to liquidate.

It is a lamentable fact that the colored districts who are less competent to judge of what apparatus to purchase, and less able

to meet their obligations, have been the greatest victims to these swindlers.

It is the policy of the incumbent of the county superintendent's office to see that the trustees and people are not imposed upon by these concerns; that the district affairs are managed economically, and that only such apparatus as will prove durable and can be practically used must be bought.

We have an excellent corps of teachers, most of whom reside in the county. They realize the importance of their profession, and have always striven to keep pace with the rapid progress which our system of public education has made.

Total . . .	\$8,595 13		\$1,803 58		\$10,398 71
-------------	------------	--	------------	--	-------------

BARREN COUNTY.

GEO. T. PARRISH, Superintendent.

I have to report that the schools of Barren county are still improving. While there are some who oppose the public school system, the people generally seem to be falling in with the idea that these schools are the salvation of the country. During the school year ended June 30, 1895, I visited all the 109 schools with 3 exceptions. As a general thing, I found both teachers and pupils more interested in their work than ever before. Several houses have been constructed during the year, and others are now being built. I find a difficulty in having colored school-houses built, on account of the colored people's being poor. We must have a different trustee system before we can make the schools what they ought to be. I think the township system the best. Nearly every teacher in this county attended some school during the spring or summer, some of them having taught school for a number of years. It is difficult in some districts to find any one to act as treasurer, on account of having to collect taxes. I believe each district should have a treasurer, but hope the next Legislature will so change the law that the collection of taxes will be done by the sheriff of each county. We are grading every school in the county, and hope soon to have every school properly graded.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county :

WHITE . .	83	COLORED . .	26	Total . .	109

BATH COUNTY.

JNO. D. McINTYRE, Superintendent.

The schools in this county have enjoyed a very prosperous year. In most cases we have competent and faithful teachers, doing every thing in their power to elevate the common school standard. The people are taking more interest than ever before. They are beginning to realize that the common schools are the hope of the country, trustees are performing their duties more promptly, putting their houses in better condition, and in every way possible, contributing to the comfort and convenience of both teachers and pupils. The present school law covers many faults, but yet there are changes that should be made, and I hope that the coming Legislature, in their wisdom, will grant us what we need. One thing I think needed, is to abolish the board of trustees, and have only one trustee, and then pay him a reasonable compensation for services rendered. I am trying to work up an interest in commencement exercises on graduation from the common school branches. I think this, if successful, will be a great incentive to the younger children.

BELL COUNTY.

J. L. McCoy, Superintendent.

I fear you will find the annual report required from this office far from full or satisfactory, as I do. I worked under many disadvantages this year, and in the absence of much of the information that should have been furnished me by teachers and trustees, and intend to give particular attention to seeing that it is surely and correctly sent in hereafter. I have sent circular letters to all the trustees and teachers that all the information called for must be sent in, and I send you this rather voluminous epistolary correspondence that you may, out of the mass of stuff, cut and cull something that may be of interest to you, and you are at liberty to use as much or as little of it as you see fit.

1. We have a county teachers' library of 240 volumes, 89 of which constitute the prize given by the State to the county, showing the largest per cent. of its teachers enrolling in the "State Reading Circle," completing the course and receiving certificates for the year 1894-5.

2. Out of the 51 districts in the county, 40 have globes, maps and charts, and in nearly all districts, the "backless bench" has disappeared and has been replaced by the very best patent desks, and, in many instances, a teachers' desk and chair have been added, new houses are being built, or are already completed in almost all districts, there being only some five or six houses that can truthfully be called *very* bad.

No district has supplemented the public money to extend the term of the school beyond the term of five months, and there seems little reason to hope or state that there will be any change in this particular. The attendance in most of the districts is not good, and this, unless it is the lack of qualified teachers (not merely those holding certificates, because we know that the certificate, while it should be, is not always a criterion of a teachers' ability to instruct youth) is the greatest drawback to a successful movement of education upwards in

the mountains. However, good houses and furniture, better and more capable men for trustees, a higher standard of educational qualifications for teachers, and a presentation of the matter to the patrons themselves, will do good work in its own time, and these eternal hills, like those of ancient Greece, will grow *men*, strong intellectual giants. We are striving to get better men for district trustees, and with tolerable success. In many instances they are loath to take the place, but generally can be induced if the Superintendent takes the time and trouble to present the matter fully, and from the seemingly increased interest this class are taking, we are hopeful for the future.

Bell county teachers took hold at once of the "Reading Circle" idea, and, studying the matter systematically, and with a view of securing all the aid possible at the examinations, they had no trouble in winning the library offered, and this fact has given them courage and ambition for another contest, and they hope to win again.

The Superintendent has, he thinks, made mistakes, especially in the matter of appointment of trustees, and so patent is this to him, that he has resolved to make no more *ex parte* selections, but to leave the matter to the patrons at the polls who, knowing better the men, their habits and qualifications are certainly much better fitted to select men to manage their affairs than the county superintendent, who is, in many instances, far removed and unacquainted.

What we need is not particularly more money, but a more economical and judicious use of what we have; men of intelligence, and fathers of children for trustees; men of affairs, who can dip into the future and, looking beyond the mighty dollar, see the large returns and the great good, not only to them and their children, but also to the State and society that will inevitable come with larger and more generally diffused education; teachers who will more fully realize the vast importance and far-reaching influence of their vocation when properly followed, who will not degrade their calling by using chicanery, misrepresentation, and even fraud to obtain schools, and who, when employed, will look for other results than sundown and wages or the "draw," as it is too frequently called; State Superintendents, who, like the present incumbent, will be without

prejudice, and imbued with a proper appreciation of his great position at the head of the schools, industrious and painstaking; trustees who will do what they make oath to do, deal as honestly, carefully and conscientiously in discharging the affairs relating to the school in their district as they do with their own private affairs, and who will, not for money or for favors, political or through friendship or kinship, be induced to contract the school to any except the one best qualified in all respects, who will not make it a condition precedent to employing the teachers that he will promise to board with the trustee, or spend the money in his store, or directly give the trustee a part of it; county superintendents who will have industry enough to visit the schools in person, and endeavor to stir up the pupils and parents to renewed effort; who will have the nerve to refuse certificates when not merited, and to revoke those already granted for the causes set out in the law; who have the nerve and the good sense and enlightened spirit to endeavor, as far as in them lies, to combat, overcome, and remove the false and benighted idea that woman—lovely and inspiring woman—who ennobles, betters and enriches everything with which she comes in contact or touches, is not qualified, or able to teach, when the facts are, that she is the natural teacher and trainer of youth; that she is fast crowding men out of this profession; in fact, many others.

We are endeavoring to secure all the benefits that can be made to flow from section 43 of the School Law, and are hopeful of good results; but care must be taken, or this provision, conceived and enacted in a humane and charitable endeavor to do something to bring into the schools the orphan, the children of very poor and unfortunate people, will be turned into an engine of oppression. Undoubtedly the care of our worthy poor and unfortunate, the education of the destitute youth of the State are the highest duties incumbent on us as members of society, as they are the noblest that can animate us as individuals, and thus we are willing, even anxious, to be liberal with the great multitude on whom fickle fortune has failed or ceased to smile. But this section can be made a flood-gate, through which a tide of unworthy, unpatriotic small-souled people can be turned on the county and rob its treasury, and thus work great wrong

on the tax-payers, sow the seed that will ultimately produce a repeal of the whole provision, and thereby utterly preclude many children from school who will, if the law is not abused in its administration, be brought in and to them secured the benefits of at least a rudimentary education in English. Let teachers, trustees, superintendents and county judges look sharply out, and let parents and guardians be conscientious and careful in their requests in this particular.

BOONE COUNTY.

L. H. VOSHELL, Superintendent.

We had a full session taught in every district in the county except one, running from five to seven months. The average work done during the year was good, and in many cases excellent. I visited every school, both white and colored, once, and many of them two or three times. By insisting on the observance of the daily programme and course of study, and demanding better apparatus for teachers to work with, I have partially succeeded in reforming methods in the primary work, the effects of which will be plainly seen in the near future. In my visits to districts, I make a specialty of bringing to the notice of parents, trustees and teachers, the importance of the primary work being done correctly. Our county is almost fully supplied with suitable buildings, there being only about three in the county that are not comparatively new, and those three will be replaced by new ones during the present year.

The law, in regard to building and repairing houses, is a most excellent one, but the present trustee system is bad, and will always be, in many places, a serious hindrance to superintendents and teachers in their efforts to introduce better methods and secure better work, and thereby obviate the supposed necessity for so many little schools called select or private. I think one trustee is sufficient, and the more business I have to transact with the present boards of three trustees, the more fully I am convinced that one competent man, paid for his work, would secure far better results than the present system. But the great bane is non-attendance or irregular attendance, and until something is done to encourage attendance at school every day in the week by every pupil in the district, our system can only be a partial success, even with the best of teachers, furnished with the best of apparatus. If this can not be accomplished in any other way than by a compulsory education law, then let us have that law as soon as possible.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . . .	47	COLORED . . .	7	Total . .	54

BOURBON COUNTY.

MISS KATE EDGAR, Superintendent.

All the public schools of Bourbon county were in active operation during five months of winter 1894-95, and many private schools were afterwards opened in same houses.

The statistics appended relate altogether to the five-month term, financially, as well as otherwise.

It has been very difficult to have the annual report of each school made out properly, so that report of County Superintendent is largely approximate.

Many of the school-houses were condemned for repairs and new furniture, and two in toto. Taxation for such purposes is so obnoxious to the property-holder that it is to be hoped there will be such legislation on the subject the coming winter as will lead to indirect taxation instead.

Unless we have compulsory laws with regard to attendance at school the classes most needing our schools will not be much benefitted by them.

We need, also, some sort of curb upon the trustee system of electing teachers. They (the trustees) often make promises and deliberately change their minds, unless bound by a written contract. Unless the district be taxed to add to the public fund, we do not see that the trustees have any right to prolong the session over five months. But many make such bargains with teachers.

Bourbon county schools are improving all the time.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	39	COLORED . .	23	Total . .	62
-----------	----	-------------	----	-----------	----

Number in which schools were taught for 5 months:

WHITE . .	38	COLORED . .	23	Total . .	61
-----------	----	-------------	----	-----------	----

Number in which schools were taught for more than 5 months:

WHITE . .	2	COLORED . .	5	Total . .	7
-----------	---	-------------	---	-----------	---

Number of graded common schools in the county:

WHITE . .		COLORED . .		Total . .	
-----------	--	-------------	--	-----------	--

II—School-houses and Furniture.

Log . .	WHITE . .	COLORED . .	Total . .	
Frame . .	35	18	53	
Brick . .	3	1	4	
Stone . .				
Value of all school-houses and grounds in county:				
	WHITE . \$36,230 53	COLORED . \$12,000 00	Total . \$48,230 53	
Value of all furniture, apparatus, etc., in county:				
	WHITE . \$2,645 00	COLORED . \$750 00	Total . \$2,795 00	
Number of school-rooms:				
	WHITE . . 47	COLORED . . 27	Total . . 74	
Total seating capacity of school-houses in the county:				
	WHITE . . 1,856	COLORED . . 1,240	Total . . 3,096	
Number of school-houses in good condition:				
	WHITE . . 34	COLORED . . 18	Total . . 52	
Number furnished with suitable desks, seats, blackboards, etc.:				
	WHITE . . 36	COLORED . . 7	Total . . 33	
Number furnished with globes, maps, charts, etc.:

------------------	--	------------	--	-------------	--

COLORED—Male. .		Female . .		Total . . .	
-----------------	--	------------	--	-------------	--

Number enrolled in Primary Grade:

WHITE—Male . . .		Female . .		Total . . .	
------------------	--	------------	--	-------------	--

COLORED—Male. .		Female . .		Total . . .	
-----------------	--	------------	--	-------------	--

Number enrolled in Grade I:

WHITE—Male . . .		Female . .		Total . . .	
------------------	--	------------	--	-------------	--

COLORED—Male. .		Female . .		Total . . .	
-----------------	--	------------	--	-------------	--

Number enrolled in Grade II:

WHITE—Male . . .		Female . .		Total . . .	
------------------	--	------------	--	-------------	--

COLORED—Male. .		Female . .		Total . . .	
-----------------	--	------------	--	-------------	--

Number enrolled in Grade III:

WHITE—Male . . .		Female . .		Total . . .	
------------------	--	------------	--	-------------	--

COLORED—Male. .		Female . .		Total . . .	
-----------------	--	------------	--	-------------	--

Number enrolled in Grade IV:

WHITE—Male . . .		Female . .		Total . . .	
------------------	--	------------	--	-------------	--

COLORED—Male. .		Female . .		Total . . .	
-----------------	--	------------	--	-------------	--

Number enrolled in Grade V

WHITE—Male . . .	Female . .	Total . . .
COLORED—Male . .	Female . .	Total . . .

Number that received certificate of graduation:

WHITE—Male . . .	1	Female . .	Total . . .	1
COLORED—Male . .		Female . .	Total . . .	

Percentage of attendance based on census:

WHITE—Male . . .	18.5	Female . .	20+	Total . . .	38.5
COLORED—Male . .	16	Female . .	17+	Total . . .	33+

Percentage of attendance based on enrollment:

WHITE—Male . . .	32	Female . .	35	Total . . .	67
COLORED—Male . .	18	Female . .	28	Total . . .	46

Total cost of teaching each child, based on average attendance:

WHITE—Male . . .		Female . .	Total . . .	\$1 97
COLORED—Male . .		Female . .	Total . . .	2 11

VII—Teachers.

Number who taught in the common schools during the year:

WHITE—Male . . .	8	Female . .	36	Total . . .	39
COLORED—Male . .	13	Female . .	13	Total . . .	26

Number who hold State diploma:

WHITE—Male . . .		Female . .	Total . . .
COLORED—Male . .		Female . .	Total . . .

Number who hold State certificate:

WHITE—Male . . .		Female . .	Total . . .
COLORED—Male . .		Female . .	Total . . .

Number who hold county certificate of first-class:

WHITE—Male . . .	2	Female . .	28	Total . . .	30
COLORED—Male . .	8	Female . .	4	Total . . .	12

Number who hold county certificate of second class:

WHITE—Male . . .	1	Female . .	8	Total . . .	9
COLORED—Male . .	5	Female . .	6	Total . . .	11

Number who hold county certificate of the third class:

WHITE—Male . . .		Female . .	Total . . .
COLORED—Male . .		Female . .	Total . . .

Number who taught during the year for the first time:

WHITE—Male . . .	1	Female . .	6	Total . . .	7
COLORED—Male . .	2	Female . .		Total . . .	2

Number of teachers who are graduates of Normal Training Schools:

WHITE—Male . . .		Female . .	Total . . .
COLORED—Male . .		Female . .	Total . . .

Average monthly wages of teachers:

WHITE—Male . . .	\$36 56	Female . .	\$36 96	Total . . .	\$36 75
COLORED—Male . .	48 90	Female . .	42 13	Total . . .	45 50

Number of teachers attending the County Institute:

WHITE—Male . . .	4	Female . .	34	Total . . .	38
COLORED—Male . .	17	Female . .	18	Total . . .	35

Number of teachers enrolled as members of the County Teachers' Association:

WHITE—Male	3	Female	34	Total	38
COLORED—Male		Female		Total	

Number of teachers enrolled as members of Reading Circle:

WHITE—Male	1	Female	17	Total	18
COLORED—Male	12	Female	13	Total	25

Number of teachers completing Reading Circle Course:

WHITE—Male		Female	5	Total	5
COLORED—Male	8	Female	3	Total	1

Number of meetings held by the County Association during the year:

WHITE—Male		Female		Total	4
COLORED—Male		Female		Total	

VIII—Financial Statement.

Money received—

From State Treasury, embracing per capita, interest on county bonds, and second-year fund:

WHITE	\$7,442 80	COLORED	\$6,110 64	Total	\$13,553 44
-----------------	------------	-------------------	------------	-----------------	-------------

From county—

Salary and expenses of County Superintendent, books for indigent children, etc.:

WHITE	\$8 50	COLORED	\$123 40	Total	\$878 40
-----------------	--------	-------------------	----------	-----------------	----------

Institute fees from teachers:

WHITE	\$60 00	COLORED	68 00	Total	128 00
-----------------	---------	-------------------	-------	-----------------	--------

From the district—

Taxes voted for teachers' salaries:

WHITE	\$516 41	COLORED		Total	516 41
-----------------	----------	-------------------	--	-----------------	--------

Taxes levied for purchase of lots, and for repairing, building, furnishing, etc.:

WHITE	\$2,121 50	COLORED	\$33 00	Total	\$2,154 50
-----------------	------------	-------------------	---------	-----------------	------------

Taxes levied for incidental expenses:

WHITE	\$53 05	COLORED	97 78	Total	150 83
-----------------	---------	-------------------	-------	-----------------	--------

Subscriptions by individuals:

WHITE	\$259 55	COLORED	4 95	Total	264 50
-----------------	----------	-------------------	------	-----------------	--------

Tuition fees and other sources:

WHITE		COLORED		Total	
-----------------	--	-------------------	--	-----------------	--

Amount on hand from last year:

WHITE		COLORED		Total	
-----------------	--	-------------------	--	-----------------	--

Total	\$10,453 31		\$6,314 45		\$16,767 76
-----------------	-------------	--	------------	--	-------------

Money expended—

For teaching, superintendence and institute work:

WHITE	\$8,769 21	COLORED	\$6,178 64	Total	\$14,947 85
-----------------	------------	-------------------	------------	-----------------	-------------

For lots:

WHITE	45 00	COLORED		Total	45 00
-----------------	-------	-------------------	--	-----------------	-------

For repairing:

WHITE		COLORED		Total	
-----------------	--	-------------------	--	-----------------	--

For building

WHITE		COLORED		Total	
-----------------	--	-------------------	--	-----------------	--

For fencing, making well, cistern, etc.:

WHITE . .	\$2,121 50	COLORED . .	\$33 00	Total . .	\$2,154 50
-----------	------------	-------------	---------	-----------	------------

For desks and seats:

WHITE . .	280 60	COLORED . .	49 00	Total . .	329 60
-----------	--------	-------------	-------	-----------	--------

For blackboards, globes, maps, charts, books, etc.:

WHITE . .	\$172 60	COLORED . .	87 00	Total . .	259 60
-----------	----------	-------------	-------	-----------	--------

For books for indigent children:

WHITE . .		COLORED . .		Total . .	28 40
-----------	--	-------------	--	-----------	-------

For fuel, buckets, brooms, etc.:

WHITE . .	\$271 41	COLORED . .	209 61	Total . .	481 02
-----------	----------	-------------	--------	-----------	--------

For payment of debts contracted previous to this year:

WHITE . .	\$32 25	COLORED . .		Total . .	32 25
-----------	---------	-------------	--	-----------	-------

For other purposes:

WHITE . .	128 40	COLORED . .	19 10	Total . .	147 50
-----------	--------	-------------	-------	-----------	--------

Unexpended balance:

WHITE . .		COLORED . .		Total . .	
-----------	--	-------------	--	-----------	--

Total . .	\$11,820 97		\$6,576 35		\$18,425 72
-----------	-------------	--	------------	--	-------------

BOYD COUNTY.

R. A. FIELD, Superintendent.

I have visited each of my thirty-four schools, and am glad to report an increase of both attendance and efficiency in the entire field. Percentage, based on census report, 51 per cent.; percentage, based on enrollment, 72 per cent.; 96 per cent. of our houses are in good condition, 97 per cent. furnished with patent seats and blackboards, and 53 per cent. with globes, maps, etc.

The system of grading is not yet what we would like to have it, but by proper attention on the part of both superintendents and teachers, we expect to make a much better showing the coming year. It is very difficult to get some teachers to take hold of this work as they should. We believe our teachers are alive to the best interests of the pupils, and, as a whole, are trying to raise the standard of education from year to year. The increasing efficiency of said teachers, largely due to a more thorough system of examination, is doing much to enlist the good will of the people in favor of the district school.

Our Institute was a perfect success—A. L. Peterman, Instructor. Every teacher in the county, save the teachers of the Ashland schools, were in attendance. All but one joined the Reading Circle, and all but three subscribed for the Southern School. You may see we are improving along this line.

The log houses have been torn down and larger and more modern frame houses erected and furnished with the proper furniture and apparatus. Though we met with much opposition while building, the people are now glad they have the houses, and are satisfied.

I am not satisfied with the present trustee system. I am in favor of a board of well qualified men in each magisterial district to manage all the schools in said district, and receive pay for this work. I hope to see the day when the present system is abolished. Then give us one county high school, and we will have a system that ought to produce results.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	34	COLORED . .	2	Total . .	36
-----------	----	-------------	---	-----------	----

Number in which schools were taught for 5 months:

WHITE . .	18	COLORED . .		Total . .	18

BOYLE COUNTY.**JOHN W. RAWLINGS, Superintendent.**

Our schools, while they are improving, are not doing, in my judgment, all that is possible for them to do. I have good and comfortable houses in all my districts, except about three, and the most of them are in excellent condition. I believe that my schools and teachers will compare favorably with any in the State, still, I recognize the fact, and it is a fact, that they are deficient in some respects. I am not "hungering and thirsting" after a little "brief authority," but I think I can suggest a remedy that will, if it does not entirely cure the patient, go a

long way toward it. It is this, local taxation, with the county as the unit, and let the good and faithful county superintendent have a "say" in the employment of every teacher. He, if he is worthy of the position he holds, knows more in one minute who ought to be employed, than the majority of trustees know in a lifetime. He is interested, and he does not work "with a zeal void of knowledge." Let me assist in the selection of the teachers, and I will bear all the blame and censure for mean schools. Never was there more wisdom in any sentence than in this: "As is the teacher so is the school."

I would have the teachers of this State to qualify themselves, and those who would not take the pains to do so would be compelled to step down and out. I would have an honest heart, an industrious hand and a cultivated mind as the conditions precedent to positions in the school-room, and not that the would-be teacher is "poor," or somebody's cousin.

I am continually struggling with questions deeply affecting the schools of my county, brought about by the employment of incompetent teachers by incompetent trustees.

This is, in my judgment, the great bane of the common schools of our country, that the county superintendent goes to his field of labor with his hands tied.

I have, in the school year just past, visited all the schools once, and some of them twice; have made many talks and appeals for the schools of the people, and I hope, as the "days go by," the good people will see and realize that at home and in the genuine common school is the place in which to educate and train for pure womanhood and manhood.

May the common schools of Kentucky, under the gallant leadership of their noble and efficient State Superintendent, become corner stones in the building whose light and influence shall extend to earth's remotest bonds.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	32	COLORED . .	12	Total . .	44
-----------	----	-------------	----	-----------	----

Number in which schools were taught for 5 months:

BRACKEN COUNTY.

GEO. W. PARSONS, Superintendent.

Our interest in the educational work for the year 1895 was such that we felt that our teachers, trustees and patrons had caught the spirit of push. The trustees co-operated with us, and in several cases the patrons voted to repair, while in some instances they voted to rebuild new school-houses. The trustees

of many districts visited us in a body, where we together, enjoyed a love feast, educationally. In fact, we are in close touch, and we feel that before long we will accomplish much good in the common school work. Our efforts have not been in vain.

It is true that we failed in two instances to vote a graded school, but we will try again soon, when we believe we shall succeed, because the people are better able to act than they were when we went down in defeat. Our teachers are first-class, most of them having normal training. Our houses are excellent; our working implements second to none. Our Reading Circle is composed of forty teachers, who are as active as bees. Why should we not be in a prosperous condition, and why should we not send this message to gladden the hearts of those who are ignorant of our progress?

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:				
WHITE . .	47	COLORED . .	2	Total . . 49
Number in which schools were taught for 5 months:

BRECKINRIDGE COUNTY.

ANDREW DRISKELL, Superintendent.

Ninety-six out of the ninety-seven white schools in the county were taught the past year. After the public term had expired several private schools were taught in the public school houses, but not reported in detail. I have visited every school once during the year, and some twice. Our school-houses are not in as good condition as we expect to have them soon. We hail with gladness many of the provisions of the present school law, especially the one providing for suitable desks and seats. The schools will never be what they should be until we have local taxation in every district in the State. We still have the old "fogies" who believe in the log school-house, backless bench, and A, B, C methods of ante-diluvian date, simply because some of our eminent statesmen have been reared and educated under this kind of circumstances—never considering once that we are living in a different age.

Teachers are improving. When their schools are out many of them attend some school to qualify themselves better for their profession, and we hope to live to see teaching a profession in *reality* rather than a name, or to use it as a stepping stone to something better.

Our Institute was one of the best in attendance ever held in the county, but much complaint on account of being compelled to attend under penalty of surrender of certificates.

The Teachers' Associations in the magisterial districts were a decided success the past year. Some districts had three meetings, and every teacher did some work and assisted in getting many of the trustees and patrons out, who expressed themselves highly pleased. More good results may be derived from these associations than any other means yet devised. If we get the co-operation of trustees and patrons, we can make rapid progress. This is the only way we can eradicate antiquated ideas. When parents attend and take part, they become more familiar with our system of schools and their needs.

The colored schools were all taught the past year, and I find that they are in charge of energetic teachers, who are very able, one being taught by a man with a State diploma, and three more with first-class county certificates; four are graduates of the best training schools. Their property is not in good condition, on account of the people's being very poor.

With the advantage of a college at home and instruction second to none, we hope to be second to none in educational development.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	97	COLORED . .	14	Total . .	111
-----------	----	-------------	----	-----------	-----

Number in which schools were taught for 5 months:

Unexpended balance					
WHITE . .		COLORED . .		Total . .	
Total . .	\$23,258 66		\$3,202 72		\$26,461 38

BULLITT COUNTY.

W. JEFF LEE, Superintendent.

I visited every school in Bullitt county in the fall of 1894, and found them in good condition. Nearly all the districts in the county have good houses and they are well furnished. We have a good corps of teachers. About 80 per cent. of them hold first-class certificates. We are raising the standard of education. There is a surplus of teachers in Bullitt and we are furnishing the adjoining counties with good teachers. Educational interest is on rising ground and our schools on a solid basis.

We are looking after the physical, mental and moral condition of the children in Bullitt. We are improving the schools by making education more practical. The outlook is bright.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	41	COLORED . .	7	Total . .	48
-----------	----	-------------	---	-----------	----

Number in which schools were taught for 5 months:

BUTLER COUNTY.

W. O. BELCHER, Superintendent.

Schools were taught in all the districts. Each school was visited once, and some twice. A majority of them were found in good working order. Most of the houses are in very good condition. Some, however, are bad, and it seems impossible to make them better, owing to the financial condition of the dis-

tricts. Several of these have been repaired and made as comfortable as possible. Most of the houses are furnished with good seats and good apparatus.

The greatest hindrance to the work is in the inefficiency of the trustees. If the Superintendent could always have the co-operation of the trustees, the work would progress. Yet, with all the draw-backs, Butler county schools are fifty per cent. better than they were five years ago.

Our county is very unevenly settled, owing to its natural features. This causes some districts to report a great many, and others only a few pupil children.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

CALDWELL COUNTY.

S. T. MOORE, Superintendent.

The educational interest is fairly good in this county. I think there is a gradual improvement in the schools from year to year. We have a very good class of teachers, and the strict examinations we now have have helped to bring about this result. All the schools of the county were visited, and I was well pleased with most of the work.

Many districts are in a bad condition financially. They are in debt for furniture, maps, charts, globes, etc. I hope, by proper effort, they will get through all right. The office of district treasurer is very unsatisfactory in this county. In

many districts we can get no one to act at all, and in many others the men selected are not competent. We would be glad to have the law changed so that the sheriff would do all collecting.

STATISTICS.

Year Ended June 30, 1895.

CALLOWAY COUNTY

J. W. FORREST, Superintendent.

There was a greater interest manifested in the schools of Calloway county last year than ever before. The teachers, patrons and friends of education seemed to be more thoroughly aroused to a sense of their duty. Six elegant school-houses were erected and furnished last year, and several more will be erected during the present school year.

About twenty-five of our schools are furnished with charts, maps and globes, and fifteen have patent desks. Our people are beginning to realize the advantages derived from well equipped school-rooms.

There are sixty-eight white and six colored school districts in this county, in all of which schools were taught and visited and lectured by the County Superintendent. We have more than one hundred teachers, and the trustees should make an earnest effort to secure the services of the more efficient. We have our Teachers' Associations as the law directs, which are attended with much enthusiasm, which is working up an increased interest.

We think there has been a great improvement in the workings

of the common schools under the new law and during the administration of the present State officials. It is truly gratifying to see the eminent success of our common school system, especially when we view it as the great principle or foundation upon which depends the stability of our free government.

Its happiest benefits can not be fully realized by those who but casually glance at its workings. The day will soon come when the gibes and thrusts of its foes will be repelled by evidences of its genuine worth. In a few years the public school will be the great source of education for rich and poor. The poor boy of Kentucky, who is endowed with natural intellect and persistency, will find his opportunities almost equal to those of an heir to fortune.

Before long the proudest of Kentucky's sons can point to some log hut, as Napoleon did to the charitable school of Brienne, and exclaim: "There is the nursery of my laurels."

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	67	COLORED . .	6	Total . .	73
-----------	----	-------------	---	-----------	----

Number in which schools were taught for 5 months:

CAMPBELL COUNTY.

 U. S. DUNN, Superintendent.

Campbell county may well feel proud of the strides she is making in the line of education. True, no new houses have been built within the last twelve months, but the principal reason is because she does not need many. Again, there is scarcely a school district in the county that has not levied a tax and either furnished with apparatus or made some other improvement equally as commendable within the last year. Our people now fully realize that teachers, as well as farmer or

mechanic, must have tools with which to work, or they can do but little, and the quality of what they do will be inferior. There are teachers, as well as mechanics and farmers, who will do little work and of an inferior grade, no matter what advantages you give them, but I am glad to say that such teachers are few and far between in Campbell county. The pay, too, for teaching in Campbell, will compare, I think, favorably with that of any county in the State, and whatever tendency there is to "jew" the teacher is fostered largely by teachers who underbid each other.

Teachers should qualify themselves well; do good honest work; and demand and exact good honest wages. The tendency of their qualifications, acts, works and bids should always be upward and never downward. No work is of greater interest to man than the work of the teacher. He or she goes directly into the homes, and holds a closer communion with the entire family than any other "outsider," if, indeed, he or she can be called an outsider.

Upon the architect depends largely the beauty, strength and greatness of a building. The teachers are the mental architects of the future generation, and upon them largely depend the future beauty, strength and greatness of "the house we live in," and incidentally of the country in which we live.

The people of Campbell county are growing more and more to realize these facts, and proportionally, as they realize them, interest in education grows.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	42	COLORED . .	Total . .	
Number in which schools were taught for 5 months:

CARLISLE COUNTY.

A. F. ELSEY, Superintendent.

The following statistical report is not altogether correct, but it is as good as can be furnished from trustees' reports received at this office.

Our schools are in a good condition as far as I am informed. My private opinion, publicly expressed, is, that we had better look a little closer after the moral culture of our children. "Book learning" is not education in its broadest sense. We are placing too much emphasis on "book learning"—educating the head and neglecting the heart, the evil effects of which are beginning to be felt in the State, and the sooner we realize the fact that education does not make people good, the better prepared will we be to meet the evil. May God speed the day when we, as a people, will understand what the word educate means in its broadest sense.

STATISTICS.

CARTER COUNTY.

LUKE P. CLARK, Superintendent.

On visiting the schools last year I was delighted to find that a vast improvement had taken place since my last term as County Superintendent. Carter now has about eighty per cent. of her houses in good condition, furnished with patent seats, globes, maps, charts, etc. Trustees are doing better work with each succeeding year. The average attendance is slowly increasing, and especially is the teaching force doing its duty. I visited all the schools in the county—some twice—and found much good work going on. Some teachers were having trouble in grading, but it is going to work. We are making an effort this year to enroll all the teachers in the Reading Circle, and expect to succeed.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	86	COLORED . .	1	Total . .	87

CASEY COUNTY.

P. H. TAYLOR, Superintendent.

In making this, my first epistolary report, I do not wish to say that the common schools of Casey county are in a satisfactory condition, for to say that would be to say that her people are not progressive, which would be a great injustice. A reasonable, and in fact, a remarkable degree of progress characterizes our schools. Casey county is not leading the advance guard in the educational progress of Kentucky. I don't claim that the destiny of the State has been providentially committed to Casey county's leadership, or that she is a century ahead of the other counties, but I do claim that she is rapidly increasing in importance and efficiency and assuming a high place in the estimation of the public. I do claim that the people of Casey county have long ago learned that they can not afford to linger in the rear. I think of our present with pride and our future with hope.

We have a wide-awake, industrious and enthusiastic corps of teachers, of many of whom I feel proud. I regret to say, however, that we have yet a few teachers who do not attend Teachers' Associations or read educational papers, but their days are numbered. They are gradually but surely stepping down and out.

In my humble judgment the greatest needs of the schools of Kentucky to-day are compulsory education and a better system of trustees. We have some trustees who are doing honor to themselves and to their office, but the greater per cent. of them are illiterate and dead to the cause of education. It is next to impossible for a County Superintendent to make anything like an accurate report of the conditions of his schools to the Superintendent of Public Instruction, since a *great many* of the trustees, owing to illiteracy and carelessness, fail to make their reports in full (if at all) to the County Superintendent. A great many of the trustees are influenced by favoritism in employing teachers. We need men who are willing to say to

cousin or neice, "*personally*, I am for you, but, *officially*, I am for the other teacher, because the best interest of the school demands it." Give us a better trustee system and a compulsory law. The Superintendent visited all of the schools of his county, but found the attendance too small, less than 50 per cent. of the pupils borne on the census returns.

Our fifty-five members of the Reading Circle deserve much credit for the great interest they have taken. Thirty of them passed the Reading Circle examination and received certificates. Two members received certificates of special merit.

We had only two pupils to take the common school graduation examination. Both received certificates.

A Teachers' Association was held in each of the eight magisterial districts of the county, and never before have the people and the teachers taken so much interest in the Associations.

Our Teachers' Institute, conducted by Mr. W. C. Grinstead, of Danville, Ky., was a success.

Our few colored schools receive the same attention from me that the white ones do, and they appreciate it equally as much. The colored population is so sparsely settled that it is difficult to keep a school-house convenient to them.

STATISTICS.

Year Ended June 30, 1895.

CHRISTIAN COUNTY.

MISS KATIE McDANIEL, Superintendent.

The schools in Christian county during the past year did good work, but we hope to accomplish greater things in the future.

Many of our trustees are becoming more interested in furnishing their districts with suitable houses. Some new houses have been built, and a large number repaired. The districts are being supplied, also, with the necessary desks and apparatus.

The one hundred and forty-three (143) schools were all, with one unavoidable exception, visited during the year. The Associations, white and colored, were well attended by both teachers and patrons, and were profitable meetings.

Our Institute for white teachers was held August 26-30, conducted by Prof. W. H. Bartholomew, of Louisville. The colored Teachers' Institute was held August 12-16, conducted by Prof. A. H. Payne, of Hopkinsville. The attendance at both was excellent, and the work done was of a high grade. The teachers responded promptly when placed on duty.

The teachers have tried to grade and have made some progress in the work.

The Board of Examiners are careful, conscientious, and painstaking in their work, and do all in their power to elevate the standard of teachers.

We have, in our county library, a good selection of books, which are a source of pleasure and helpfulness to the teachers.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	89	COLORED . .	54	Total . .	143

CLARK COUNTY.

C. E. LYDDANE, Superintendent.

The schools of Clark county are in better shape than ever before. The attendance is larger, there is a greater disposition shown by patrons to have the services of good teachers, and an increasing willingness to be taxed for school-houses and furniture. The "backless bench" is a thing of the past, uniformity of text books has been secured, though at considerable trouble. A number of new school-houses have been built in the county, some of them costing over a thousand dollars. Only one or two poor school-houses remain, and they will be replaced shortly. A large portion of the houses have been recently furnished with charts, maps, globes, etc. The County Board of Examiners have been very strict in examinations, and, in consequence, the standard of teaching is quite high.

The colored schools are also improving very much, and some of our colored teachers will compare favorably with teachers of any section of the country of either color. Several new school-houses for colored districts have been built in the last few years, but others are needed, and how to build them is a serious problem. The colored people own but little property, and it is almost impossible to collect a poll-tax. Perhaps the best plan is to get a few leading spirits interested, and get them to hold a series of festivals—at least the plan has worked well here. All in all, more progress has been made in Clark county school matters in the last few years than ever before, and our schools and teachers will compare favorably with those of any county in the State.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

-----------	------------	-------------	--	-----------	----------

Unexpended balance:

WHITE . .		COLORED . .		Total . .	
-----------	--	-------------	--	-----------	--

Total . .	\$19,284 70		\$6,112 53		\$25,397 23
-----------	-------------	--	------------	--	-------------

CLAY COUNTY.

DR. I. S. MANNING, Superintendent.

Interest in the cause of education in this section is manifestly on the increase. This is attested by a marked increase in the attendance of the common schools; by a greater number of studies required to be taught; by a better qualified corps of teachers; by better houses and better equipments; by numerous private schools taught in various districts, and by the large number of pupils attending same. It will require only a few years more of steady, persevering work along the present lines to make the common school system of Kentucky efficient, self-commending and self-preserving. The greatest obstacle at present to be overcome is the poverty, indifference and neglect of certain of our population, whose children have never yet attended school. When this is overcome the problem is solved, and then in future no man will have the temerity to raise his voice in opposition to the common school system of Kentucky.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . . .	86	COLORED . . .	5	Total . . .	91

CLINTON COUNTY.

T. M. GUTHRIE, Superintendent.

I took charge of the schools of this county in August of last year, and found them in a prosperous condition. Since that time the work has gone steadily on. There is a fair attendance with a marked progress among the pupils. Quite a number are preparing to pass the graduation examination. The teachers realize that better qualification is expected, and are attending school more than ever before. Trustees are repairing or building in several districts. Patrons are manifesting a greater interest than formerly by attending associations and participating in the work of the same.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	40	COLORED . .	2	Total . .	42

CUMBERLAND COUNTY.

T. S. SCOTT, Superintendent.

While I have engaged in other business since I came into the office of County Superintendent, in order that I might make a reasonable living, I have not neglected my official duties. By diligence and firmness I have succeeded in putting new life into the schools of the county. Trustees are being educated to a sense of their duty, and are performing it. Some new school-houses have been erected, and several more are under repair, and soon the log school-house and the old-fashioned seats will be a thing of the past.

The standard of teachers is being raised, and a general spirit of improvement is manifest.

Our last institute shows a marked improvement over the previous one. A library committee was appointed, and I have begun to make a plea for an office—heretofore not furnished the

County Superintendent. I feel satisfied that it will be furnished, and that we can start a respectable library.

The adopted list of text-books have worked their way into favor with both teachers and patrons, and I would suggest that no changes, except in a few subjects, be made for a period of ten years.

DAVEISS COUNTY.

ROBT. L. LANCASTER, Superintendent.

The past school year was an exceedingly prosperous one for us. During the year I visited each one of the 122 schools of the county, and found the attendance, enthusiasm, professional spirit, etc., unusually good. Much of the improvement in school work is due to the grading system and the Reading Circle, in which the teachers have done well.

The school-houses of the county are in good condition and well equipped. Several new houses were built during the year.

The trustees have been diligent in securing water supply for the schools, and in improving school grounds with fences, shade trees, etc.

Our last institute was a success. The precinct Teachers' Associations have been well attended, and have accomplished much good. The public school idea commands greater confidence, and is more firmly fixed than ever in the minds of our people.

-------------------------	------------	-------------

EDMONSON COUNTY.

MITCHELL VINCENT, Superintendent.

I visited all the schools that were in session at the time, and found them in a good condition. Teachers seem to realize that unless they read and study something besides the text-books they can not keep pace with the times.

This accounts for the number of educational journals being read by teachers. Five years ago not a teacher in this county read (regularly) an educational journal. Now, almost every teacher reads one or more, and some of them four. The writer has condemned (35) thirty-five of the fifty school-houses for whites, either for repairs or for the purpose of building new houses; hence our school-houses are quite up with the times. There are a few back numbers yet, but we will soon take them off the list.

We are moving up grade educationally, but we have not even seen the top yet.

The colored schools are poor indeed. These people are not able to build good houses. The schools are small and do not command good teachers.

We need a change in our trustee law. I believe if we had three good men in each magisterial district to employ all the teachers in their districts and look after the interest of the schools, and a first-class high school in each county, results would be far more satisfactory.

We need but one grade of certificates for teachers; all teachers should stand on the same level. Then teaching would become a profession. Men and women would remain in the work and not use it as a stepping stone to some other position.

ELLIOTT COUNTY.

W. B. LE MASTER, Superintendent.

The schools for the year just closed have made progress, but not as fast as they should have done, owing, partly, to hard times; but the interest manifested by parents, pupils and teachers grows from year to year, and the time is not far distant when nearly all children will attend the common school.

The teachers seem to be making greater preparations for the work each year, and I think we shall soon have a first-class teacher for every school district.

ESTILL COUNTY.

C. MARCUM, Superintendent.

This is my first year's work as Superintendent, and I hardly know what to say of the schools. We had 54 white and 3 colored taught for five months, and I feel safe in saying that a large portion of these schools were taught in accordance with the best methods. The trustees, as a rule, seem to want to do their duty and respond readily to the calls for repairs, etc.

The school-houses, with few exceptions, are in very good condition, and many of them have the maps, charts, etc., but very few have the patent seats and desks.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	54	COLORED . .	3	Total . .	57
-----------	----	-------------	---	-----------	----

FAYETTE COUNTY.

M. A. CASSIDY, Superintendent.

At the risk of provoking a smile from those who know the propensity of men in charge of any institution, whether public or private, to present only the good side to the public, I must say that the schools of Fayette county are in excellent condition. With two exceptions, the school houses are comfortable, and all are furnished with modern desks and approved teaching appliances. As a rule, the trustees are among the best men in the county, and are fairly zealous in the discharge of duty. Some districts have voted a tax to extend the school term, and, what is better, there are few in these districts, notwithstanding the original opposition, who would now have the tax defeated. This question of local aid should, I believe, be agitated in every county. When the masses realize that they can not have good schools, and certainly no better schools than they now have, until they have longer terms, and consequently, better teachers, they will not be slow to seize this advantage which the law wisely offers. All that is needed is agitation.

One of the essentials in the upbuilding of our public schools is the arousing of a healthy public sentiment in their behalf. When public sentiment is low, the schools go out of the public mind, and both schools and teachers take the "dry rot."

Believing this, it has been my aim to keep my schools before the public, thus impressing on each school, that it is an important factor in the sum of public affairs. The walls of my office are adorned with the pictures of the school-houses, teachers and pupils of the county schools, all of which are nicely framed. The pictures have excited comment from all sorts of people, many of whom did not before know whether there were four or a hundred and four schools in Fayette county, and the unfavorable comment of the public on some of the bad houses, has caused the making of better ones, in one instance of the building of one of the best county school-houses in the State. These pictures I had made for an exhibit of the county schools at the Lexington Industrial Exposition, held in 1894-5. The exhibit

consisted of a typical log cabin, externally as rude as that which housed the first Kentucky school. The exterior represented the old school. The interior was made to represent the modern school, and was neatly finished and furnished, and decorated as a modern school room should be. On the seats was an elaborate display of the work of all the children in the county schools. This exhibit was visited by thousands of people, and caused much favorable comment, and did much to create a greater interest.

Another means which I have found highly effective, is in the enforcement of the law on county graduation. Each year, for the last eight, I have had a number of graduates, the class of 1894-95, numbering more than thirty. The knowledge that such examinations are certain to be held, excites interest among the pupils, and makes them much more studious than they would be without this incentive. After the examination, preparations are begun at once for the county school commencement, which, each year, I have tried to make a notable event of the scholastic year. They are held in the Opera House, and the people who are interested enough to want to be there, would fill a house of twice our Opera Houses' capacity. The interest aroused by these commencements is great.

I have found that the County Teachers' Association, if properly conducted, are calculated to do much good among both teachers and people. At my last association, there were nearly two hundred and fifty people, besides the teachers, and to show the people's interest, they prepared a sumptuous dinner for the whole congregation. In fact this is the greeting the teachers received at each association. The subjoined programme will show the nature of exercises at these associations:

To the Teachers of Fayette County :

On Saturday, October 5, 1895, at Chilesburg, the first Fayette County Teachers' Association for 1895-96 will be held. The Association will convene at 10:30 a. m. Teachers will bring lunches. Every teacher is wanted and expected on this occasion. The following will be the

PROGRAMME.

A School Cabinet Miss Charlotte Pilcher.
Nature Studies in the County Schools Mr. Henry M. Gunn.

Instructive School Games	Miss Margaret McCubbin.
The Children's Reading Circle	Mr. John P. Nelson.
The Community's Interest in the School. Who Arouses it? How is it Done?	
	Miss Maud Christian.
Recitation.	Mr. E. L. Crystal.
The Importance of the Teachers' Reading Circle	Mr. C. G. Stevenson.
Lecture—Child Study	Prof. R. N. Roark.

With the proper enforcement of the laws, and, perhaps, a little legislation on the trustee system, placing the management of the schools and the selection of teachers in the hands of a county board, I have no fear that Kentucky will not soon be abreast of the times in the matter of common schools.

I can not close this epistolary report without congratulating you on the wonderful advance strides the schools have made during your administration. You have been active in their betterment, and the intelligent interest you have manifested in them has given the schools an impetus that will carry them onward to the goal which every lover of the cause desires to see. For your encouraging words, ready action whenever called on, and the systematic manner of your administration, you have the love and thanks of every friend of education in the Commonwealth.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . . .	31	COLORED . .	17	Total . .	48
-------------	----	-------------	----	-----------	----

Number in which schools were taught for 5 months:

FLEMING COUNTY.

C. G. WHALEY, Superintendent.

Our schools were well attended during the first of the term, but when the cold weather set in, the attendance ran very low in most districts.

We are building ten new houses, and repairing six old ones. Expect to have a comfortable house in every district in the county by the last of next year. Do not intend to relax my efforts until the teachers and schools of Fleming are in the front.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	69	COLORED . .	7	Total . .	76

-------------	--	--	--	--	-------------

FLOYD COUNTY.

J. N. HARRIS, Superintendent.

It would not be an exaggeration to say that the interest in the common schools of the county of Floyd, during the year was more general, and at the same time more earnest than at any time before. The county is extremely mountainous and broken, hence irregular districts, and uneven numbers of children in the district, who change with the shifting ideas of the patrons, from district to district, and cause no little trouble and study to the county superintendent and add greatly to his work.

The duty of providing better school-houses was urged by the County Superintendent, on every proper occasion, and that was taken up by a great many teachers, and urged by them until there was a general feeling among the people to improve their school-houses. In many cases, houses have been improved, and in some, new ones built, and a splendid foundation laid for putting into effect, the provisions of the new school law. In twenty-nine districts the people are aroused to the school interest, are taking the lead in this direction, and they have provided comfortable, well furnished school-houses. Sixteen other districts have houses now under construction, and, of the remaining districts, nearly all are arranging to repair the old ones. I feel that by another year, the County Superintendent will be able to report a very great improvement on the condition of the school-houses, and, on the progress and prospects of the schools. Teachers are already manifesting a greater interest, and are becoming more professional in their work. Increased appreciation of the Teachers' Institute, the Teachers' Association, the Teachers' Reading Circle, the increased demand for professional works, the adoption of systematic and rational methods in teaching, evince this interest. The Institute was first-class, and attended by all the teachers except two. The County Superintendent visited nearly all the schools, and some of them two and three times, and by addresses and other means, which occasion suggested, did all he could to improve conditions, and

he feels that the schools of Floyd county have made as good a record as ever before.

I appreciate, in the highest degree, the courtesy you have shown me as an official, and the interest you have ever manifested in the character and conduct of the common schools.

STATISTICS.

Year Ended June 30, 1895.

FRANKLIN COUNTY.

MISS LUCY PATTIE, Superintendent.

I have visited all the schools during the past year, and it is gratifying to report a decided improvement in them. I find the majority of the teachers wide-awake and progressive in their ideas and teaching.

Some of our houses are not what they should be, but I think that within a year, we can have them all comfortable and well furnished. In some of the schools the discipline is good, and the work being done far better, and in a more systematic manner. We are grading the best we can, and hope to have this very important work first-class in a short time.

The colored schools are doing very good work, considering the houses and furniture they have to contend with. On account of the colored people's having very little taxable property, and most of them being tenants who move around so much, it is almost impossible to build up a district so that we can have comfortable houses for them.

The white Teachers' Institute was held in August, and conducted by Prof. Lumley, of Tennessee. It was one of the most interesting and beneficial ever held in the county. That of the preceding year was conducted by Prof. Burke, of Newport, an instructor of rare ability, and practical in all his work.

The colored Institute was conducted by Prof. Jackson, of the State Colored Normal, and his energy and enthusiasm, as well as willingness of teachers, made it a success.

We have a County Teachers' Library, and have elected a judicious committee, that will push the work until we have a good supply of reading matter for our teachers.

Unexpended balance:			
WHITE . .		COLORED . .	Total . .
Total . .	\$12,427 60	\$1,573 78	\$14,001 38

FULTON COUNTY.

D. E. WILSON, Superintendent.

In this county more than three-fourths of the white districts have new school-houses, and all, with the exception of three, have patent seats and desks; but better than the new school-houses, and better than the patent furniture and suitable apparatus—better than all this, is the excellent sentiment on the part of the patrons and trustees in favor of the common schools. We have no private schools, and no private school interest in the county. The public school interests are paramount.

With such a healthy sentiment in favor of the public schools, it is only a question of time when their work will meet the approval of the most exacting patrons.

In school matters, as in every thing else, the people are conservative and move slowly, but in this county they are moving, and moving in the right direction. The demand is made for better and more experienced teachers, and I believe I voice the sentiment of the best educators in our county, in asking that at least one year's experience in teaching be one of the requirements of a first grade certificate.

The teachers of our county make good use of their County

Library, which contains over three hundred volumes. They are also liberal subscribers to educational papers and journals, every teacher in the county subscribing to at least one paper.

The colored schools are doing as well as could be expected. They are not suffering from lack of interest, but from lack of taxable property and a lack of money. The colored people are really too poor to build suitable and comfortable school-houses. We have some excellent teachers, however, in the colored schools.

With comfortable houses, furnished with patent seats and desks, with at least one-half the districts furnished with globes, maps and charts, and with the strong public school sentiment that now exists, I believe that Fulton county will keep abreast of the times in all educational matters.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:				
WHITE . .	27	COLORED . .	8	Total . . 3
Number in which schools were taught for 5 months:

GALLATIN COUNTY.

DR. CHAS. F. BURKHARDT, Superintendent.

The last year has been a very successful one for the common schools of Gallatin. We have built and furnished four excellent school buildings, and repaired, furnished with desks, charts, maps, blackboards and globes a considerable number during the past year. At the present time there is not an uncomfortable house in any white district in the county, nor one that is not furnished with nice patent desks, and the majority with charts, maps and globes.

The greatest barrier in the way of educational progress in this county is the present trustee system, which, in my judgment, should be abolished, and something in the way of a more central management substituted. This would be much more effective, and would protect the interests of the pupil children.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county					
WHITE . .	24	COLORED . .	4	Total . .	28
Number in which schools were taught for 5 months:					
WHITE . .	21	COLORED . .	4	Total . .	25

-----------	------------	--	----------	------------

GARRARD COUNTY.

J. HUNT McMURTRY, Superintendent.

This has been my first year, but the results of my efforts to raise the standard of the schools of the county have met my most sanguine expectations. Many features of our new school law has given a new impetus to schools. We have a better class of teachers, better accommodations, better facilities in many respects. Many of our districts have built large and convenient houses and supplied them with charts and school furniture. With attractive surroundings, the attendance has largely increased and more interest is manifested. We are getting a better class of trustees. The people, realizing the authority placed in the hands of the trustees, are more careful in the selection of them. Under the new law the text-books are obtained at 25 to 50 per cent. less than formerly.

We had nine to complete the common school course and receive certificate of graduation, the first the county has ever had to take the examination. We expect many more the present school year. We have also discarded the five-month district school in Lancaster and now have a nine-month graded school, with a corps of six teachers and a \$10,000 school-house. Yet we have much room for improvement.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	41	COLORED . .	14	Total . .	55

GRANT COUNTY.

B. N. HARRISON, Superintendent.

I was qualified as Superintendent of Common Schools of Grant county August 13th, 1894. While I had a general outline of the work, I was somewhat deficient in experience in regard to the duties devolved upon me. I at once endeavored to ascertain whether all the districts in the county were supplied with trustees, teachers, proper blanks, etc. I am glad to report that I had the fifty-seven white schools in the county taught by sixty-six teachers. Of the sixty-six teachers engaged in the work of the white schools fifty-six held first-class certificates, seven second class and three third-class. Of the four colored teachers employed in the county two held first-class certificates, one second class and one third class.

We have an excellent graded free school at Williamstown, which furnishes employment for five first-class experienced teachers. We trust that we shall soon have a graded free school at Dry Ridge; also one at Corinth. Twenty-nine of our schools are furnished with a complete set of maps and charts. Almost all our school-houses are in fair condition. All but six are furnished with patent desks, and three of the six are made to fill the law, and the remaining three will be furnished as soon as it is expedient to levy a tax for that purpose. We had during the year two excellent new school-houses built and furnished at a cost of about five hundred dollars each.

At the beginning of my term we had fifty-four volumes of choice selections in our teachers' county library. During the year we have purchased a large and elegant library case; also obtained an Encyclopædia Britannica and a few other good books, and now our library contains about one hundred volumes.

Many of the trustees and patrons seemed to take considerable interest in the schools, while others were careless and unconcerned about their own interests and privileges.

We held Teachers' Associations in different parts of the county, which were well attended by the teachers and patrons.

While I think that the school year throughout was as prosperous as any preceding year, everything indicates a greater interest and better results at an early day.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	57	COLORED . .	4	Total . .	61
-----------	----	-------------	---	-----------	----

Number in which schools were taught for 5 months:

GRAVES COUNTY.

WM. J. GREGORY, Superintendent.

Our schools are in excellent condition, yet I see much room for improvement in the matter of school-houses, furniture and apparatus, as well as in teaching.

Four new houses were built last year at a cost of not less than four hundred dollars each. Twenty-five houses have been supplied with patent seats and desks. Twenty-eight districts are well supplied with globes, maps, charts, etc., and others are partly supplied with them. We have one hundred school-houses, which are valued at thirty-four thousand four hundred and sixty dollars and twenty cents. The school furniture is valued at nine thousand three hundred and forty-eight dollars and thirty cents. One new district was organized during the year. Six new houses have just been completed, and a score or more repaired and enlarged.

Our teachers are, as a general thing, earnest and faithful. They received an average salary of forty-six dollars and eighty cents, which showed an inducement for skilled and efficient teachers. There seems to be some spirit of underbidding for schools among a few of our teachers. We sincerely hope that our next General Assembly will so amend the common school law as to prevent this. I consider this as very detrimental to our public schools, and should not be indulged in or encouraged. I visited most of the schools of my county last year and found them doing well and well provided for, with but few exceptions. The percentage of attendance based on the census was forty-eight, and on enrollment sixty-two, which is the best

showing ever made before in the schools of this county. I think this indicates great progress. The people of this county seem to appreciate the public schools more than they did in the years from 1879 to 1885, at which time I was County School Commissioner for Graves county. I should like to contrast the schools of that period with the schools of to-day, but, as brevity is what is wanted in this report, I can not do so.

As to our colored schools I wish to say that they are not lacking in interest. We had but few teachers who were at all competent to instruct ten years ago; now we have many; indeed, quite a number of colored teachers hold first-class certificates, and are well up on general reading. We have eighteen colored schools districts, and in each there is a house; but I regret to say many of them are unfit for schools, and there are very poor prospects for better ones.

The white Institute, which was very largely attended by teachers and friends to public schools, was conducted by Prof. R. N. Roark, of Lexington. The colored Institute was conducted by Prof. J. T. Gray.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	100	COLORED . .	18	Total . .	118
-----------	-----	-------------	----	-----------	-----

Number in which schools were taught for 5 months:

WHITE . .	95	COLORED . .	18	Total . .	113
-----------	----	-------------	----	-----------	-----

Number in which schools were taught for more than five months:

WHITE . .	5	COLORED . .		Total . .	5
-----------	---	-------------	--	-----------	---

Number of graded common schools in the county:

WHITE . .		COLORED . .		Total . .	
-----------	--	-------------	--	-----------	--

II—School-houses and Furniture.

Log . .	WHITE . .	1	COLORED . .	4	Total . .	5

Number educational meetings held . .		10	Number addresses delivered.		118
Number years he has served as County Superintendent					1
Salary . .	\$1,100	Amount allowed for expenses . .			Total . \$1,100
Name and address of Institute Conductor—White—Ruric N. Roark, Lexington, Ky					
Name and address of Institute Conductor—Colored—J. T. Gray, Mayfield, Ky.					

VI—Pupils.

Number in census report:

WHITE—Male . . .	4,685	Female . .	4,507	Total . . .	9,192
COLORED—Male . .	642	Female . .	618	Total . . .	1,255

Number enrolled in school:

WHITE—Male . . .	3,741	Female . .	3,344	Total . . .	7,085
COLORED—Male . .	444	Female . .	458	Total . . .	902

Number over 18 years old when enrolled:

WHITE—Male . . .	177	Female . .	86	Total . . .	263
COLORED—Male . .	7	Female . .	2	Total . . .	9

Number over 10 years old unable to read and write when enrolled:

WHITE—Male . . .	38	Female . .	21	Total . . .	59
COLORED—Male . .	14	Female . .	7	Total . . .	21

Average attendance at school:

WHITE—Male . . .	2,026	Female . .	1,920	Total . . .	3,946
COLORED—Male . .	228	Female . .	241	Total . . .	469

Number of pay pupils attending school:

WHITE—Male . . .		Female . .		Total . . .	
COLORED—Male . .		Female . .		Total . . .	

Number enrolled in Primary Grade:

WHITE—Male . . .	783	Female . .	642	Total . . .	1,425
COLORED—Male . .	75	Female . .	71	Total . . .	146

Number enrolled in Grade I:

WHITE—Male . . .	535	Female . .	471	Total . . .	1,006
COLORED—Male . .	67	Female . .	51	Total . . .	118

Number enrolled in Grade II:

WHITE—Male . . .	453	Female . .	381	Total . . .	834
COLORED—Male . .	37	Female . .	43	Total . . .	80

Number enrolled in Grade III:

WHITE—Male . . .	467	Female . .	436	Total . . .	903
COLORED—Male . .	39	Female . .	34	Total . . .	73

Number enrolled in Grade IV:

WHITE—Male . . .	818	Female . .	748	Total . . .	1,566
COLORED—Male . .	54	Female . .	97	Total . . .	151

Number enrolled in Grade V:

WHITE—Male . . .	684	Female . .	716	Total . . .	1,400
COLORED—Male . .	36	Female . .	54	Total . . .	90

Number that received certificate of graduation:

WHITE—Male . . .	Female . .	Total . . .
COLORED—Male . .	Female . .	Total . . .

Percentage of attendance based on census:

WHITE—Male . . .	Female . .	Total . . .	48
COLORED—Male . .	Female . .	Total . . .	50

Percentage of attendance based on enrollment:

WHITE—Male . . .	Female . .	Total . . .	62
COLORED—Male . .	Female . .	Total . . .	73

Total cost of teaching each child, based on average attendance:

WHITE—Male . . .	Female . .	Total . . .	\$6.25
COLORED—Male . .	Female . .	Total . . .	11 12

VII—Teachers.

Number who taught in the common schools during the year:

WHITE—Male . . .	69	Female . .	41	Total . . .	110
COLORED—Male . .	9	Female . .	12	Total . . .	21

Number who hold State diploma:

WHITE—Male . . .	Female . .	Total . . .
COLORED—Male . .	Female . .	Total . . .

Number who hold State certificate:

WHITE—Male . . .	Female . .	Total . . .
COLORED—Male . .	Female . .	Total . . .

Number who hold county certificate of first class:

WHITE—Male . . .	57	Female . .	34	Total . . .	91
COLORED—Male . .	4	Female . .	7	Total . . .	11

Number who hold county certificate of second class:

WHITE—Male . . .	12	Female . .	7	Total . . .	19
COLORED—Male . .	1	Female . .	2	Total . . .	3

Number who hold county certificate of the third class:

WHITE—Male . . .	Female . .	Total . . .			
COLORED—Male . .	4	Female . .	3	Total . . .	7

Number who taught during the year for the first time:

WHITE—Male . . .	6	Female . .	4	Total . . .	10
COLORED—Male . .	4	Female . .	1	Total . . .	5

Number of teachers who are graduates of Normal Training Schools:

WHITE—Male . . .		Female . .		Total . . .	
COLORED—Male . .		Female . .		Total . . .	

Average monthly wages of teachers:

WHITE—Male . . .		Female . .		Total . . .	\$46 80
COLORED—Male . .		Female . .		Total . . .	36 00

Number of teachers attending the County Institute:

WHITE—Male . . .	69	Female . .	41	Total . . .	110
COLORED—Male . .	9	Female . .	12	Total . . .	21

Number of teachers enrolled as members of the County Teachers' Association:

WHITE—Male . . .	69	Female . .	41	Total . . .	110
COLORED—Male . .	9	Female . .	12	Total . . .	21

Number of teachers enrolled as members of Reading Circle:

WHITE—Male . . .	25	Female . .	20	Total . . .	45
COLORED—Male . .		Female . .		Total . . .	

Number of teachers completing Reading Circle Course:

WHITE—Male . . .	5	Female . .	4	Total . . .	9
COLORED—Male . .		Female . .		Total . . .	

Number of meetings held by the County Association during the year:

WHITE—Male . . .		Female . .		Total . . .	8
COLORED—Male . .		Female . .		Total . . .	3

VIII—Financial Statement.

Money received—

From State Treasury, embracing per capita, interest on county bonds, and second-year fund:

WHITE . .	\$25,765 60	COLORED . .	\$3,780 00	Total . .	\$29,545 60
-----------	-------------	-------------	------------	-----------	-------------

From county—

Salary and expenses of County Superintendent; books for indigent children, etc.:

WHITE . .		COLORED . .		Total . .	\$1,186 58
-----------	--	-------------	--	-----------	------------

Institute fees from teachers:

WHITE . .		COLORED . .		Total . .	130 00
-----------	--	-------------	--	-----------	--------

From the district—

Taxes voted for teachers' salaries:

WHITE . .		COLORED . .		Total . .	
-----------	--	-------------	--	-----------	--

Taxes levied for purchase of lots, and for repairing, building, furnishing, etc.:

-----------	--------	-------------	--	-----------	--------

For books for indigent children:

WHITE . .		COLORED . .		Total . .	86 58
-----------	--	-------------	--	-----------	-------

For fuel, buckets, brooms, etc.:

WHITE . .	\$872 17	COLORED . .	41 80	Total . .	913 99
-----------	----------	-------------	-------	-----------	--------

For payment of debts contracted previous to this year:

WHITE . .	\$1,505 05	COLORED . .		Total . .	1,505 05
-----------	------------	-------------	--	-----------	----------

For other purposes:

WHITE . .	54 85	COLORED . .		Total . .	54 85
-----------	-------	-------------	--	-----------	-------

Unexpended balance:

WHITE . .	245 06	COLORED . .		Total . .	245 06
-----------	--------	-------------	--	-----------	--------

Total . . .	\$5,999 04		\$121 65		\$36,982 87
-------------	------------	--	----------	--	-------------

GRAYSON COUNTY.

ED. B. MEHR, Superintendent.

I am not satisfied with the showing of the different grades in my annual report, herewith submitted. It seems that the teachers have not understood the matter well enough to grade the pupils as they should. I shall do all I can to aid them this year. I think I shall have a better grade of teachers to deal with than last year. It seems that they are changing about somewhat.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county :

WHITE . .	105	COLORED . .	3	Total . .	108

-----------	-------------	--	----------	--	-------------

GREEN COUNTY.

JAMES H. WOODWARD, Superintendent.

With the introduction of the Teachers' Register and Grade Book more has been done than ever before in the way of classing pupils properly and grading the schools. One great impediment has been too many classes, too many recitations, not enough *study* and not enough *systematic* work ; but the impediment is being gradually removed. There are nine houses in the county yet that are not furnished with the proper desks ; some of said houses are to be repaired, some to be built anew.

There is a slow but substantial improvement in the Association work in the county ; more meetings are held than formerly, and better interest in the meetings.

Institute work also is increasing in interest and influence ; but educational sentiment calls for something better than an Institute. Much has been done in the way of furnishing apparatus. About one-third of the schools are well furnished with globes, maps and charts.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

GREENUP COUNTY.

L. R. McCARTY, Superintendent.

Educational interest is growing very rapidly in this county. Our people are willing to pay their hard-earned money in support of public schools. Many beautiful and commodious houses have been reared in the last few years. During the past year improvement has gone on throughout almost every school district in the county. Good water has been supplied by means of wells. Hundreds of patent seats and desks have been purchased. Good blackboards have been furnished and houses

made comfortable. The results show a very great increase of interest upon the part of citizens generally, and consequently a much larger per cent. of pupils in attendance at school. I believe that we should now have at least six months public school in every district—a fall term of three months and a three-month winter school. Now, if our Legislature would give us a compulsory educational law, requiring parents to send all children between the ages of eight to fourteen years of age to the public school at least three consecutive months each year, much more could be accomplished.

We have but two colored schools in this county. The colored citizens here, as a class, are poor, and unable to build and furnish school-houses. They are now taxing themselves each year, and making an effort to build better houses. Good schools have been taught in both districts, and the children have done excellent work, considering the conditions.

STATISTICS.

Year Ended June 30, 1895.

HANCOCK COUNTY.

J. W. MASTON, Superintendent.

Hancock county received from the State last year \$8,667.75, one-half of which she paid into the State Treasury. We have forty-one white and four colored schools with a total census of 3,102. We have thirty-six good frame, one good brick and eight log school-houses. The entire value of school-houses and grounds is \$16,965. The value of all furniture is \$3,882. We have seating capacity for 2,475 pupils. Thirty-eight of the forty-five houses are furnished with good seats, blackboards,

maps, charts and globes. We had during the past year three new houses built and eighteen repaired. We have thirty books in the teachers' library, which are used by the teachers liberally. There were enrolled in school 2,056 children; there were seventy-five in the county over 10 years old that could not read or write. The total cost of each child, based on the average attendance per month, was \$1.07. There were twenty-seven male and twenty-four female teachers. One State certificate was issued to Prof. A. Powell. Twenty-two first-class, seventeen second class and twelve third class certificates were issued. The average monthly wages of teachers were: Male, \$41.35; female, \$31.46. Twenty-two teachers completed the Reading Circle work. We received from all sources during the year \$13,568 94, and the same amount was paid out for teaching, repairing, building, furnishing, books for indigent children, incidentals, etc. All in all the year was a very profitable one to our schools. Our Institute was a success—our teachers wide-awake; our officers discharged their duties—our patrons were in earnest and our children in love with their work. There is no reason why popular education in Hancock county shall not reach the highest point of success.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

HARDIN COUNTY.

J. R. ASHLOCK, Superintendent.

School interest was never better in Hardin county than now. Teachers, trustees and parents are working in harmony, and the great object aimed at—the moral and intellectual growth of the pupils—is being accomplished. The average attendance was 75 per cent. of enrollment, 55 per cent. of census.

Including assistants, there were 132 teachers employed—60 male and 72 female. The certificate-holding teachers numbered 116. Of these, 57 held first class, 54 second class and 5 third class.

Of the 108 public school-houses in the county, 70 are frame, 35 log and 3 brick, and 60 of them are furnished with maps, charts, etc., while 54 are seated with patent desks. This short report is taken from my "Record Book," which contains not only an account of the condition the various schools were found in when visited, but many points of interest taken from the Teachers' Register. It affords me much pleasure to add also my personal testimony to the progress of education in Hardin county. Compared with last year, our schools show a very decided improvement in every way. The teachers labor harder than ever before to do their whole duty. As education advances the conscientious teacher is shown day by day more clearly what his duty is, and, seeing it, he proceeds at once to its honest discharge. During the term just closed we note that trustees have been active, and that good results have been obtained. Our school-houses are being improved, notwithstanding there are yet persons who oppose. We must not close without saying that our county papers have done splendid work for the cause of popular education. They are a power, and the good they have done and are yet doing can not be overestimated.

HARRISON COUNTY.

JNO. G. POPE, Superintendent.

I think the common schools of this county are in a better condition than ever before. We have a corps of teachers second to none. Their interest in the work has no bounds. About two-thirds of the schools in the county are taught by first-class teachers.

Our Institute was attended by all the teachers, and was one of the most interesting ever yet held. Prof. Leonard, the conductor, never grew weary and his efforts were a source of pleasure to all. The people of the county seem to take an active part in all school-work and quite a number of them visited our County Institute. The interest in our Teachers' Association is gradually increasing.

The colored teachers are more efficient than formerly, the majority of them holding first-class certificates, and the whole corps are members of the State Reading Circle. I feel that in a few years more our schools will be thoroughly graded and will occupy the place in the estimation of the public which their importance demands.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	63	COLORED . .	12	Total . .	75

HART COUNTY.

J. W. GAINES, Superintendent.

The schools in my county are in very good condition. Forty per cent. were accurately graded to the third grade last year. This year all except five or six will be graded to the fourth. Regular attendance and earnest work were found in about eighty per cent. of them. Of the rest, about four failed on account of utter indifference on the part of patrons and trustees. The other failures were due to "misfit" teachers. Taken as a whole, the work was very satisfactory and is excelled only by the work of the present year.

The school property of the county is in good condition. During the last eighteen months we have built about thirty new houses, all of them in strict conformity with the law. Have repaired about fifty; seated with patent seats about twelve; with legal "home-made" seats about twenty-two. The rest have the "long benches" under condemnation. I have perfected the deeds to a large part of the school property, and will, I think, reduce all to fee-simple titles during the present year. The people are interested in the improvement of their school property and have raised little opposition to the work. Some illustrative apparatus has been put in the schools, but the high price charged for it has been the means of retarding work in this line.

The teachers, as a rule, did excellent work. Enforcing the course of study was rather unpopular with the patrons and some failed for that reason. But oral lessons were given in almost all the schools, and the course of study fully carried out in many. Nearly all the teachers read professional literature and use the books from the Teachers' Library. Their reports were promptly and carefully made and the register in nearly every instance accurately filled. Many are making the work a profession and are doing all in their power to build up the common schools of the county.

During the last year I visited all the schools of the county,

many of them twice. During the first round I examined record-books, revised boundaries, and gave instruction in the work of grading. During the next round I examined particularly in grades I, II, III. I find the examinations to have an excellent effect, both on teacher and pupil. During this year, the same line of work will be followed. We have enlarged the course of study, rendering it more specific and reducing it to monthly work. This work has been placed in the hands of each teacher and the examinations will be conducted on that basis.

The white Institute was conducted by J. C. Pirtle, assisted by Prof. Lumley. Eighty-eight teachers were in attendance and the work was the best done for years.

The colored Institute, conducted by J. H. Garvin, a graduate of the State Normal School for colored persons, was a success.

The Teachers' Association met regularly, according to law, last year. Those who failed to attend were required to teach an additional day.

Our County Library numbers about 180 volumes. It has been well patronized by the teachers. The colored library is small—only 7 volumes—and is not used as much as it should be.

The law does well, if well executed. However, there should be some modification of the law concerning fee-simple titles; it should be more specific in regard to moral qualifications of teachers; and the third grade certificate should be abolished.

STATISTICS.

HENDERSON COUNTY.

THOMAS POSEY, Superintendent.

Henderson county is making earnest efforts to keep step with the music of educational progress. She has increased her number of new and well-built school-houses by about seven or eight since this time last year. Only 57 teachers were licensed during the past year as against about 100 the previous year, and only

about 10 or 11 first-class certificates issued as against over 40 the previous year. Every teacher in the county has been studying privately, or attending school during the vacation just past. The full number of association meetings have been held, with large and satisfactory attendance, except in the extreme cold weather, when attendance was impracticable. The members of the Examining Board who hold their positions by appointment are entitled to the highest commendation for their conscientious and faithful discharge of duty, and for their noble determination to sustain the State Board of Examiners in their efforts to raise the standard for State certificates.

Especial mention is due to Prof. J. W. Welch for having presented thirteen pupils out of his excellent school at Robards as applicants for common school diplomas, all of whom were successful in passing the examination prescribed by law. Of that number Mr. Nicholas Toy, of Robards, also deserves distinguished mention for having won the Superintendent's prize in a splendid contest, comprising a goodly list of competitors, for the best short but comprehensive definition of character.

Our teachers have been almost a unit in enlistment in Reading Circle work, and over thirty of the enrolled number obtained certificates of special merit.

The work of visitation and supervision has been done in a systematic and careful manner, and the results recorded in a book prepared especially for that purpose. The entire undivided attention of the Superintendent was given to the work in hand up to the close of the regular sessions of the schools, which occurred for the most part at or before the first of March.

Total . . . \$14,101 23		\$2,962 67	
		\$17,063 90	

HICKMAN COUNTY.

CHARLES A. KENNEDY. Superintendent.

The public schools of Hickman county are growing in efficiency and importance, and assuming the place in the estimation of the public which certainly belongs to them, notwithstanding the two excellent and well equipped colleges are here.

Schools have been taught in each district the required length of time, and generally by good teachers.

In many districts there is a desire to obtain better teachers than can be had for the public money. Many of the districts demand higher branches taught than the common school course, and are supplementing the salaries of such teachers by private subscription.

Notwithstanding the sickness and press of work last year, the average attendance reached fifty-one.

In the colored schools of this county there is really more interest manifested, and a little better average attendance than there is in the white schools. Everything indicates that a greater amount of good is being done by the schools than in former years, with few exceptions, but there is still great room for improvement.

On account of a failure on the part of the trustees to make the full report required of them, I find it impossible to make my statistics as accurate and comprehensive as they should be in some respects.

Since I have been in office (five years) I have built twenty-nine white and five colored school houses. All the white school-houses are furnished with patent seats except three, two of which have nice home-made seats, and the last one is just built and will be furnished soon. I took advantage of the law before it was repealed, requiring apparatus for the schools, and condemned every house not in accordance with that law. As a result, eighty five per cent. of our school-houses are furnished with a good supply of globes, maps, charts, etc.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	42	COLORED . .	10	Total . .	52
-----------	----	-------------	----	-----------	----

			\$16,990 95

HOPKINS COUNTY.

THOMAS H. SMITH, Superintendent.

I have to report an improved condition of the schools of Hopkins county. Since the thirteenth day of August, 1894, the work of building new school houses and repairing old ones, has moved up rapidly.

Our text-books have been reduced to uniformity, by which, of course, the work of the teachers is made more effective. The per cent. of attendance has been increased, but somewhat disturbed by sickness and heavy crops.

The "backless benches" will, in a short time, be a "thing of the past." Our schools for the new year are now all in session, and doing fairly well.

Our Institutes (both white and colored), were largely attended, and we did profitable work. Taking it all in all, we are improving fairly well.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county				
WHITE . .	84	COLORED . .	24	Total . . 108
Number in which schools were taught for 5 months:				
WHITE . .	80	COLORED . .	24	Total . . 104
Number in which schools were taught for more than 5 months:				
WHITE . .	4	COLORED . .		Total . . 4
Number of graded common schools in the county:				
WHITE . .		COLORED . .		Total . .

II—School-houses and Furniture.

Log . .	WHITE . .	5	COLORED . .	8	Total . .	13
Frame .	“	63	“	16	“	79
Brick .	“	16	“		“	16
Stone .	“		“		“	
Value of all school-houses and grounds in county:						
	WHITE . .	\$21,800	COLORED . .	\$800	Total . .	\$22,600
Value of all furniture, apparatus, etc., in county:

Number educational meetings held . .	7.	Number addresses delivered . .	102
--------------------------------------	----	--------------------------------	-----

Number years he has served as County Superintendent	1
---	---

Salary . .	\$803 88	Amount allowed for expenses . . \$. .	Total . .	\$803 88
------------	----------	--	-----------	----------

Name and address of Institute Conductor—White—E. McCulley, Madisonville.
--

Name and address of Institute Conductor—Colored—H. S. Sanders, Madisonville.
--

VI—Pupils.

Number in census report:

WHITE—Male . . .	3,771	Female . .	3,649	Total . . .	7,420
COLORED—Male. .	768	Female . .	744	Total . . .	1,512

Number enrolled in school:

WHITE—Male . . .	2,263	Female . .	2,555	Total . . .	5,818
COLORED—Male. .	502	Female . .	502	Total . . .	1,004

Number over 18 years old when enrolled:

WHITE—Male . . .	193	Female . .	244	Total . . .	437
COLORED—Male. .	102	Female . .	183	Total . . .	285

Number over 10 years old unable to read and write when enrolled:

WHITE—Male . . .	136	Female . .	146	Total . . .	282
COLORED—Male. .	203	Female . .	216	Total . . .	419

Average attendance at school:

WHITE—Male . . .	1,630	Female . .	2,080	Total . . .	3,710
COLORED—Male. .	410	Female . .	412	Total . . .	822

Number of pay pupils attending school:

WHITE—Male . . .	65	Female . .	85	Total . . .	150
COLORED—Male. .	17	Female . .	22	Total . . .	39

Number enrolled in Primary Grade:

WHITE—Male . . .	452	Female . .	510	Total . . .	962
COLORED—Male. .	120	Female . .	126	Total . . .	246

Number enrolled in Grade I:

WHITE—Male . . .	360	Female . .	372	Total . . .	732
COLORED—Male. .	142	Female . .	180	Total . . .	272

Number enrolled in Grade II:

WHITE—Male . . .	201	Female . .	221	Total . . .	422
COLORED—Male. .	79	Female . .	87	Total . . .	166

Number enrolled in Grade III:

WHITE—Male . . .	186	Female . .	203	Total . . .	389
COLORED—Male. .	62	Female . .	63	Total . . .	125

Number enrolled in Grade IV:

WHITE—Male . . .	512	Female . .	618	Total . . .	1,130
COLORED—Male. .	80	Female . .	102	Total . . .	182

Number enrolled in Grade V:

WHITE—Male . . .	552	Female . .	631	Total . . .	1,183
COLORED—Male. .	19	Female . .	71	Total . . .	90

Number that received certificate of graduation:

WHITE—Male . . .	3	Female . .	3	Total . . .	6
COLORED—Male. .		Female . .		Total . . .	

Percentage of attendance based on census:

WHITE—Male . . .	50	Female . .	53	Total . . .	51
COLORED—Male. .	47	Female . .	52	Total . . .	49

Percentage of attendance based on enrollment:

WHITE—Male . . .	82	Female . .	76	Total . . .	61
COLORED—Male. .	57	Female . .	59	Total . . .	51

Total cost of teaching each child, based on average attendance:

WHITE—Male . . .	Female . .	Total . . .	\$2 83
COLORED—Male . .	Female . .	Total . . .	2 86

VII—Teachers.

Number who taught in the common schools during the year:

WHITE—Male . . .	38	Female . .	60	Total . . .	98
COLORED—Male . .	14	Female . .	17	Total . . .	31

Number who hold State diploma:

WHITE—Male . . .	Female . .	Total . . .
COLORED—Male . .	Female . .	Total . . .

Number who hold State certificate:

WHITE—Male . . .	Female . .	1	Total . . .	1
COLORED—Male . .	Female . .		Total . . .	

Number who hold county certificate of first class:

WHITE—Male . . .	20	Female . .	37	Total . . .	57
COLORED—Male . .	5	Female . .	7	Total . . .	12

Number who hold county certificate of second class:

WHITE—Male . . .	14	Female . .	13	Total . . .	27
COLORED—Male . .	6	Female . .	10	Total . . .	16

Number who hold county certificate of the third class:

WHITE—Male . . .	4	Female . .	10	Total . . .	14
COLORED—Male . .	5	Female . .	4	Total . . .	9

Number who taught during the year for the first time:

WHITE—Male . . .	18	Female . .	20	Total . . .	38
COLORED—Male . .	5	Female . .	7	Total . . .	12

Number of teachers who are graduates of Normal Training Schools:

WHITE—Male . . .	3	Female . .	4	Total . . .	7
COLORED—Male . .		Female . .		Total . . .	

Average monthly wages of teachers:

WHITE—Male . . .	\$43 60	Female . .	\$32 70	Total . . .	\$76 30
COLORED—Male . .	32 40	Female . .	21 60	Total . . .	54 00

Number of teachers attending the County Institute:

WHITE—Male . . .	75	Female . .	50	Total . . .	125
COLORED—Male . .	13	Female . .	20	Total . . .	33

Number of teachers enrolled as members of the County Teachers' Association:

WHITE—Male . . .	32	Female . .	46	Total . . .	78
COLORED—Male . .	10	Female . .	13	Total . . .	23

Number of teachers enrolled as members of Reading Circle:

WHITE—Male . . .	46	Female . .	32	Total . . .	78
COLORED—Male . .	8	Female . .	9	Total . . .	17

Number of teachers completing Reading Circle Course:

WHITE—Male . . .	6	Female . .	2	Total . . .	8
COLORED—Male . .	1	Female . .	3	Total . . .	4

Number of meetings held by the County Association during the year:

WHITE—Male . . .		Female . .		Total . . .	4
COLORED—Male . .		Female . .		Total . . .	2

VIII—Financial Statement.

Money received—

From State Treasury, embracing per capita, interest on county bonds, and second-year fund:

JEFFERSON COUNTY.

ALFRED HERR HITE, Superintendent.

It is with pleasure I make my first annual report. Schools were taught in every district in the county, and about one-half of the ninety-four schools from eight to ten months. The most of the houses are in good condition, and about ninety per cent. are well equipped with new seats, maps, charts, etc.

The schools of this county are somewhat overshadowed and handicapped by the metropolis. Most of the advanced pupils and wealthier people patronize the city schools. However, we had twelve graduates from the county schools, the first the county has ever had. Many of the county teachers have received their training in the Louisville Normal and High Schools. One-half of the teachers in this county have taught the same school from five to fifteen years. One has been nineteen and another twenty-three years at the same place.

We have a few excellent colored schools, with good houses, and teachers holding first-class certificates.

The Board of Examiners has had some trouble in seconding the State Board in its efforts to raise the standard, as many trustees insist that their especial pets or relatives have a certificate, whether they deserve it or not, "because the district is satisfied."

The great need is closer supervision by the school officers, and compulsory local aid in every district. The great drawback, in my humble opinion, is the cumbersome three trustee system, too weighty for this county.

We have had two meetings of the Trustees' Association, which resulted in good, but they seem averse to attending as they should. I shall not presume to offer a remedy, but I think it could be improved upon. In a word, the State is trying to get something for nothing—a trustee's services without any remuneration.

STATISTICS.

Year Ended June 30, 1895.

JESSAMINE COUNTY.

W. R. HARRIS, Superintendent.

We have had a prosperous school year. All our districts had a five months' school, and at least half of them supported a three months' "subscription" school.

We have now one bad house in the county, but it will be replaced by a nice new one before another school year. I visited all the schools once, and quite a number of them two or three times.

Our Teachers' Association held meetings in every magisterial district. Nearly every teacher read White's School Management, and half of them read Skinner's Folk Lore. We issued nine Reading Circle certificates.

Our colored schools are doing well. Most of the colored teachers hold first-class certificates, and are hard-working, conscientious teachers.

I hope by next year to report every house in splendid condition. Most of the yards are well fenced. The average attendance is less than fifty per cent.

STATISTICS.

Year Ended June 30, 1895.

KNOTT COUNTY.

G. C. SMITH, Superintendent.

The schools of Knott county have, for the last few years, made considerable progress. The teachers are far better qualified than those of days gone by. There is not a teacher in the county but who can teach a good school. Some few are doing very meritorious work.

One difficulty is school-houses. They are not very comfortable, and are not furnished as they should be for a teacher to do good work. Another is getting treasurers to collect the taxes after they have been levied by the trustees, and another is the smallness of the tax in certain districts, as the people are mostly all poor, and, consequently, the taxes are not sufficient to build and equip houses as they should be. The parents seem to be neglectful, as they don't send to school regularly. There are but few districts in the county which will average fifty per cent. of the pupils enrolled in the census report, and I think the cause to be principally neglect of parents.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	50	COLORED . .	1	Total . .	51
-----------	----	-------------	---	-----------	----

LARUE COUNTY.

CHARLES WILLIAMS, Superintendent.

There has been great improvement in the public schools of this county. Several new houses have been built and furnished with patent desks. It is easier to raise material aid for schools than ever before.

Teachers are preparing themselves better, and patrons are taking more interest. Our associations are largely attended by both patrons and teachers.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:					
WHITE . .	50	COLORED . .	5	Total . .	55

-------------	-------------	----------	-------------

LAUREL COUNTY.

B. F. JOHNSON, Superintendent.

In making this, my first annual report, I shall report the schools as I found them. I made one official visit to each of the eighty-eight schools, while they were in session last fall. Of these schools, eighty-five were white and three colored. They were conducted by ninety-five teachers, of whom forty-six hold first-class certificates, forty second and nine third-class. I found thirty-four log houses, twenty-six box houses, and twenty-eight framed houses. Of these, forty-four are furnished with seats and desks, as the law requires; thirty-nine with seats with backs without desks, while five houses still had the *backless bench*. Blackboards were found in all the houses but one. Charts or maps and globes were found in thirty-one schools. Sixty-seven of the teachers are males and twenty-eight females. In eleven districts the trustees meet once a month, as the law directs; in sixty districts the trustees occasionally visit the school, generally one at a time, while in seventeen districts the trustees had never visited the schools at all.

Every school in the county was being conducted under the new graded system, and nearly all reported that it was proving a grand success.

Teachers' Associations were held in each of the five magisterial districts. They were all well attended by both teachers and citizens.

In my opinion, the greatest menace to the progress of the common schools in this county, is the present trustee system. The abuses seem to grow worse each year. I have no remedy to suggest. Notwithstanding these drawbacks, the educational outlook for this county is very favorable, and I hope to be able to report next year the greatest progress all along the line that has ever been made in one year in this county.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

Unexpended balance:

WHITE . .	354 00	COLORED . .	Total . .	354 00
-----------	--------	-------------	-----------	--------

Total . .	\$20,232		\$808	\$21,042
-----------	----------	--	-------	----------

LAWRENCE COUNTY.

ROBERT S. BILLUPS, Superintendent.

Greater progress has been made in this county during this year than ever before. Seven good frame houses were built and reported in annual report. Twenty-five were repaired and so reported. Since annual report was made, six good frame houses have been built. Trustees in six other districts are now making arrangements to have houses erected in their districts. When this is done, almost all our districts in Lawrence will have good comfortable houses.

In January, 1895, only three school-houses in our county were furnished with patent seats. Now thirty-three are so furnished. I believe fifty will be furnished before the year closes. Only a few schools have been furnished with necessary apparatus. I hope and believe this will be done soon.

I am glad to say that our teachers are rapidly improving. Most of them are interested in our Institutes and other educational meetings, and are well supplied with educational works, books and journals. They, as a rule, have excellent methods, and are doing excellent work. Our Institutes and Associations have been well attended, and have done much to improve our teachers. Our Institute was instructed by John C. Willis, of Mitchell, Indiana.

Most of our trustees seem to be willing to do their duty, but, heretofore, so little attention has been given them, and so little has been done by them, that they hardly know what to do. Yet, I am glad to say that quite a number of them have been doing excellent work during the last year.

One of the many evidences of progress, is the greatly increased interest taken in schools by teachers, trustees, patrons and pupils. May this spirit continue to grow and manifest itself. It is necessary to progress. I may be too confident or mistaken, but, to me, the outlook seems to grow brighter and brighter.

STATISTICS.

Year Ended June 30, 1855.

I—Districts.

Number of districts in the county:

WHITE . .	88	COLORED . .	2	Total . .	90
-----------	----	-------------	---	-----------	----

LEE COUNTY.

J. GRANT THOMAS, Superintendent.

In the way of an epistolary report, I can only state that during the last school-year there has been some very substantial improvements made in the school houses, and a number of districts have bought patent desks and all proper apparatus; but many of them are having trouble to raise the money to pay for them.

The present system of taxation is all right, and entirely adequate soon to provide each district with a good house, well furnished, if there were any practical way to get the taxes collected; but this is where we are behind.

You will observe in my annual report that I was unable to give the amounts that had been collected and expended. This was because there is no practical way to get this information.

The examination this year shows an improvement among the teachers, both theoretically and practically, and a better attendance indicates a steady improvement of the entire system.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	34	COLORED . .	2	Total . .	36

LETCHER COUNTY.

JAMES P. LEWIS, Superintendent.

Very truly it has been said that the mountain parts of Kentucky are a decade behind the times, but Letcher county is fast coming to the front in educational work. Her schools are improving year by year in facilities and work, and especially so in the last two years.

More than seventy-five per cent. of our teachers attend a training school during vacation, which has a very beneficial effect on our schools, for we rarely find a teacher energetic enough to prepare himself thoroughly who makes a failure. Our teachers spend almost all their wages in school work, by which they have greatly improved themselves, and reformed

the school system. The more advanced plans are being assimilated by them and effectively used in their schools, which demonstrates the time honored adage: "As is the teacher, so will be the school."

Never before were there more than thirteen first-class teachers in this county, while, for the current year, there are thirty-five. This, of itself, conclusively shows a radical change and development.

Not long ago I condemned every house in the county, and now have only a few houses completed; but quite a number of nice houses are in course of construction. Our houses for quite a time will be badly furnished, for we are thirty miles from railroads, therefore, will rarely buy patent seats, etc.

Our county is financially poor, but our schools are progressing. While they are by no means what they should be, still, all things considered, their condition is encouraging.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

LEWIS COUNTY.

GEO. ED. DUNBAR, Superintendent.

The schools of this county were well attended during the past year, and our teachers are manifesting more interest in securing a creditable attendance than ever before. They realize that their future success depends on their past record, and they are laboring earnestly in order to give the people the full value of their money.

The people are beginning to see that they cannot afford to neglect the public school, for there the mass of the people must get their education.

The present system of collecting school tax is very unsatisfactory; yet, notwithstanding this, we have erected six substantial new frame houses during the year.

The Teachers' Associations were fairly well attended by the teachers, and also by the people in the vicinity where they were held.

Our teachers have a very nice library of eighty-one volumes, and many of them are spending their leisure hours in reading good books. This will enable them to give the pupils something more than a knowledge of the matter contained in the text-books.

Our Institute was conducted by Prof. John C. Willis, of Shelbyville, Ky. He demonstrated his ability as an Instructor by securing and holding the attention of almost all the teachers in attendance.

This county has been invaded by the energetic question-peddlers from other counties, but they have been caught so often that they have concluded to give this county a wide berth in the future. Every Superintendent and teacher should use all honorable means to stop this abominable business. The only way to do this is to refuse to grant a certificate to any person who has ever been connected with the question thieves.

The annual report for this year is not as full and accurate as I desired, but it is as well gotten up as circumstances would admit, taking into consideration the incomplete returns from some districts.

I notice that applicants for certificates to teach in the colored schools are much better qualified than heretofore. I also find they did much better work in the school-room during the past year than formerly.

STATISTICS.

Year Ended June 30, 1895.

LINCOLN COUNTY.

MISS KATE BLAIN, Superintendent.

In my three years' connection with the schools as teacher and Superintendent, I can say that every succeeding year showed a marked improvement. Our Teachers became more progressive and better equipped for their work, and our Institutes more instructive and entertaining.

I have visited most of the schools this year, and find the majority of them doing well. Some of them, in the poorer sections, are yet in a bad condition as regards house and furniture. Very few not provided with charts.

I wish the trustees could be more thoroughly aroused to their duties, and the people generally impressed with the obligations resting upon them to educate their children, so that they would not keep them from school so much.

Those who most need the schools are the ones most remiss in sending to school. The districts having bad houses are very poor, and, I suppose, are unable to build better. So far, I have found two houses that are unfit to be in at all. One of them was condemned by Superintendent McClary, but the district thinks it is too poor to build a new house.

I am very sorry that I can not send such a report as should be sent. All that I know would properly come under this years' report.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	61	COLORED . .	17	Total . .	78

LIVINGSTON COUNTY.

H. V. McCHESNEY, Superintendent.

I am glad to be able to report that the common schools of Livingston are in splendid condition. Great progress has been made during the recent school year.

All the schools in the county were taught five months, one six months, and one eight months. Almost half of the schools were followed by a private school of three or four months.

I visited all the schools once, many of them twice, and several of them three times.

The teachers are manifesting a greater pride in the profession, and a much greater interest in the cause of popular education than ever before in this county. While the schools were not all graded, a very commendable effort was made along that line, and I hope that before long I shall be able to say that all are graded.

There has been considerable increase in interest among trustees. At our Institute this year, we had twelve trustees present on "Trustees' Day."

My statistical report shows the conditions of the county as regards houses, furniture and apparatus. While it is not such a report as I should be pleased to make, it is one I am proud of. Forty-three houses out of fifty-seven in good condition; forty-two of them suitably furnished, and nineteen of them having maps, globes, charts, etc.

We have two graded common schools, with the probability of two more at an early day.

Our Institute has been held for three successive years by a conductor who does a large Institute work in this part of the State, and he pays us the compliment to say that we have the best Institute he has conducted.

Five very interesting and profitable sessions of the Teachers' Association were held during the year. These meetings were much better attended than ever before.

One of the most prominent features of the year's work was the

interest manifested by the teachers in the Library. Liberal donations were made both by teachers and friends of education. Our statistical report shows 65 volumes in Library for year ending June 30th, 1895, at the present writing (three months later) there are 120 volumes. At least one-third of the Library is composed of professional works, which are eagerly read by the teachers.

The Reading Circle course (which, by the way, we consider a great aid to our common school work) is popular with our teachers.

The colored schools, six in number, are in fair condition. Two of the teachers held first-class certificates. The need of an education seems to be slowly but surely dawning on the minds of the better element of our colored people.

STATISTICS.

WHITE . .	COLORED . .	Total . .
-----------	-------------	-----------

Unexpended balance:

WHITE . .	COLORED . .	Total . .
Total . .		\$11,050 00

LOGAN COUNTY.

THAD A. GILLUM, Superintendent.

The common schools of Logan county have made visible advancement and progress in the last two years. The teachers, as a whole, have done good work. It is encouraging to state that out of one hundred and thirty teachers, only eight white teachers taught on third class certificates, and only three colored teachers used that grade. We have seven white teachers who hold State certificates; one colored teacher holding same grade. First-class certificates are held by forty-nine white teachers; seventeen colored teachers holding same grade. Second class

certificates are held by thirty-nine white teachers and nine colored teachers.

While the Superintendent is doing his whole duty, the schools of the county could be in a better condition if there were more interest manifested by the people and the trustees, and it is hoped that the next Legislature will give us school laws that will remedy the minor affairs pertaining to the schools, for it is these *little things* that ruin the system.

I am thoroughly convinced that the three trustee system is not for the best interest of the schools. There should be but one trustee for each district; he should be elected or appointed, and paid a reasonable sum for his services by the district; should be elected or appointed for four years, thus saving a large amount to the State in printing matter alone, and preventing untold confusion. There should be some other method by which the teachers are employed. I can't see how a Superintendent can make a success of his schools and have no voice in saying who shall teach them. I recommend the above changes, and say let us give them a trial.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:				
WHITE . .	89	COLORED . .	32	Total . . 121
Number in which schools were taught for 5 months:

LYON COUNTY.

DAVID F. BRIGHTWELL, Superintendent.

Lyon county is making some progress in the improvement of her common schools. The houses are better equipped, more nearly up to the requirements of law, and we have had during the past year a better class of teachers than ever before. Many communities are thoroughly aroused, and leave nothing undone that would make their schools better.

I believe the old law ought to be re-enacted, giving the teacher the right over his pupils that a judicious parent has.

If we are to have corporeal punishment at all, let the law be clear. If not, let it be equally clear. There is no need for a "straddle" upon this question. It will result in endless confusion, and work injury to the whole system.

As it is often well-nigh impossible to secure a collector in some districts, I believe it would be well to let the sheriff collect all school taxes, or require the constable to collect for all districts within his magisterial district.

It might be well to require the trustees to have their school begin not later than a certain date—say October 1, and not earlier than August 1, as some teachers have in the past insisted on beginning in July—some time early in the month. A July school month is not worth much to a district.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . . .	28	COLORED . .	12	Total . .	40

MADISON COUNTY.

MRS. AMANDA T. MILLION, Superintendent.

There has been an increase in the number of districts in Madison county, until we report one hundred and one, and in each a school is taught every year. We have several small districts. These latter are undesirable; but divisions were made through the solicitation of the people, and a desire to place a school in reach of all. It has been impossible to equalize the school population, especially in the colored districts that are so sparsely settled that we sometimes fail to have a legal district, while in many places there are villages supporting more than a hundred pupils.

The district lines are irregular on account of the broken surface of land and the numerous streams.

Thousands of dollars has been expended in repairing, building and furnishing school-houses, and we are beginning to feel proud of our county in this respect. But our interest has not

been directed to this particular line, which is only one essential to good schools. The work of the schools have been considered most important, and in this the improvement has been remarkable.

The work of every pupil who attends school is annually inspected by the County Superintendent when visiting the schools. The teachers have thus been aided in introducing all the common school branches and grading the schools, and believe we have reached such a degree of perfection as attainable with the irregular attendance that our public schools are experiencing. It is true that the per cent. of attendance is increasing yearly, but those developments appear slower than necessary.

Much can be said in praise of the teacher. There was never a time when the country teacher felt the honor of his profession as he does to-day. He knows the importance of his trust, and is trying to do his duty, and were it not for the short term, which makes it necessary for the teacher to divide his time between teaching and something else, more could be required of him professionally. We would not fail to mention the great work that is being done by the Teachers' Association. What appears to be the best results from these associations, is the ability to bring the patrons of the schools together with the teachers to discuss important questions.

The colored teachers organized this year, and arranged programmes by which they hoped to secure the interest and co-operation of the large attendance of patrons. The desired effect is already seen in the increased attendance at school.

STATISTICS.

Year Ended June 30, 1895.

For other purposes:

WHITE . .		COLORED . .		Total . .	
-----------	--	-------------	--	-----------	--

Unexpended balance:

WHITE . .		COLORED . .		Total . .	
-----------	--	-------------	--	-----------	--

Total . . .	\$23,170 33		\$7,408 58		\$30,579 41
-------------	-------------	--	------------	--	-------------

MARION COUNTY.

W. T. KNOTT, Superintendent.

The schools of the county are doing better than ever before, teachers better prepared, better attendance of pupils, better school-houses, a marked increase of interest in the cause of education with both teachers and pupils, with a growing interest among the patrons.

The above remarks are intended for the *white schools* only. I am sorry to say that there is not only no improvement in the colored schools of the county, but a general want of interest everywhere among the colored people, owing to the small attendance of pupils, and general lack of interest on the part of the colored parents.

I think there should be some way devised by our next Legislature to enforce a better attendance, both of white and colored children. Our people are heavily taxed, but so far it seems few are benefitted.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . . .	51	COLORED . .	13	Total . .	64
-------------	----	-------------	----	-----------	----

Number in which schools were taught for 5 months:

MARSHALL COUNTY.

L. E. WALLACE, Superintendent.

Schools were taught in all the districts. Each was visited at least once. A majority of them were found in a working condition. The interest of the people is growing each year. Each district has a house (except the colored districts) of some character, and a very large majority of them are good ones, and very nearly half have the patent desk. In a short time we shall find no other desk in use in Marshall county. It is very

seldom that there is a question as to whether the patent or home-made desk should be purchased.

The associations were well attended in some localities. The greatest impediment to our schools is indifference on the part of the patrons, and that is on the decrease, and will continue to decrease as the masses of the people are educated concerning the value of the common schools. We have some good and efficient teachers in this county, and others are better suited for something else. Inexperience of teachers is detrimental to our schools. Some of the experienced teachers have ceased to teach because the character of examinations is such that they can not get certificates. We have only a very few holding certificates who are not teaching.

The colored schools are doing reasonably well. In some instances the pupils are situated too far from school-houses to attend regularly and without serious inconvenience.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	54	COLORED . .	2	Total . .	56
-----------	----	-------------	---	-----------	----

-----------	-------------	--	----------	--	-------------

MARTIN COUNTY.

W. T. CAIN, Superintendent.

Schools were taught in every district in the county, and all were found in a prosperous condition. Both teachers and pupils were faithfully employed.

The county is now supplied (with a few exceptions) with good and comfortable school-houses.

Twenty-four or five of the thirty-one districts are furnished with apparatus. The standard of certificates is improving every year. This year over fifty per cent. of the teachers em-

ployed hold first-class certificates. And at present the Superintendent can say that a deeper interest has been manifested by teachers, pupils and patrons during the closing year, than in any previous year in his knowledge.

Heretofore great carelessness was manifested by a majority of the people, but I am proud to say that an increased interest can now be seen and felt in every district.

The County Institute, conducted by Prof. J. W. Wheatley, was one of the best ever held in the county. Great interest was manifested by all who attended.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

MASON COUNTY.

G. W. BLATTERMAN, Superintendent.

Our teachers are doing good work, and with very few exceptions are thoroughly competent; indeed, to an extent that is remarkable, when we take into consideration our method for employment of teachers. It is gratifying to recite the improvement in the school houses. Four years ago the County Superintendent found the schools in most miserable condition, many of them wretched hovels, absolutely untenable. At this date a very different condition exists. Nineteen new buildings have been erected, provided with patent furniture, charts, etc. These are good buildings, erected under the supervision and advice of the Superintendent, and they cost from six hundred to twenty-eight hundred dollars each. Seventeen houses have been thoroughly repaired. All these houses are provided with proper out-houses. Many districts have built good cisterns, so that a supply of good water is always obtainable. Session

of 1894-95 we paid each teacher \$4.95 per capita each scholar. Our schools were in session seven, eight and nine months.

We held ten meetings of the Teachers' Association and Reading Circle.

Our Institute was conducted by Mr. R. C. Shipp, five days very satisfactorily. We had attendance of seventy-five teachers, and the session was pleasant and profitable. It is a glaring inconsistency in our school laws that teachers in the city schools, deriving their pay from the same source as the teachers of county schools, should not be held subject to the same rules, regulations and requirements.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

McCRACKEN COUNTY.

A. M. ROUSE, Superintendent.

I visited all the schools in the county, white and colored, while in session (with one exception), and found them nearly all doing well.

In several districts I found them using as text-books other than those adopted by the County Board. These were removed immediately, and the proper books put in their places.

About four-fifths of the white districts in the county have good comfortable houses, mostly supplied with patent desks. The houses in the others are rapidly being replaced by new ones. Two new houses were built during the year, and six more are being built for the coming session. Two new districts were organized, and new houses are being built in both districts.

The colored brother seems to be in a bad way. Only four of the twelve districts have school-houses. Schools are being

taught in the colored churches, some of which are in bad condition. They claim they are not able to build houses. The greatest trouble is, they are not permanent residents—are here one year and gone next. An effort is being made to have a good house in each district, which I think we can soon accomplish.

Greater efforts than ever before were made during the year to grade the schools. While none of them were rightly graded, great progress was made toward a perfect system. I find what I consider two great drawbacks toward grading, viz: “cross-grading” and the lack of a more definite course of study. The course of study sent out by the State Board is good as far as it goes, but, in my judgment, doesn’t go far enough. What I think we need is a course of study which prescribes just *what* and *how much* to be done in each grade each term. Of course the *live, progressive* teacher can and will succeed admirably with the present course of study; but, unfortunately, that class of teachers in most counties is in a minority.

It is my opinion that as long as cross-grading is allowed we will have nothing but cross graded schools, and cross grading is no grading at all.

A County Teachers’ Association was organized in connection with the Reading Circle, and kept up the year round, something never done in this county before. The attendance and interest were as good in the spring months as in the winter. Nearly every teacher secured and read the Reading Circle books, and one or more educational papers.

In addition to the County Association and Reading Circle, educational meetings were held monthly in each magisterial district, which were largely attended by trustees and patrons as well as teachers.

In conclusion, I will say that, while I believe the teachers will compare favorable with those of any county in the State, I believe that the greatest need of our schools to-day is more efficient teachers. A good teacher will teach a good school under any kind of a school system, and a poor teacher will teach a poor school under the very best system. I am a firm believer in “as is the teacher, so will be the school,” and I hope to see at an early date a good Normal School, supported by the

State in this end of the Commonwealth, that will give the teachers of the Purchase an equal chance with those in the Central part.

STATISTICS.

Year Ended June 30, 1895.

Unexpended balance:					
WHITE . .		COLORED . .		Total . .	1,396 74
Total . .	\$2,447 62		\$39 23		\$13,804 70

McLEAN COUNTY.

DR. J. E. HAYNES, Superintendent.

The educational interest in McLean is much greater than ever before. Our white Institute, held in August, was a decided success. The colored Institute, from September 30, to October 5 (five days), was a very interesting one, though the first ever held in the county. Our August Institute was conducted by Prof. W. B. Maple.

New school-houses and new supplies are the principal topics of conversation among our citizens at present,

STATISTICS.

Year Ended June 30, 1885.

I—Districts.

Number of districts in the county:

WHITE . .	53	COLORED . .	6	Total . .	59

MEADE COUNTY.

W. D. ASHCRAFT, Superintendent.

The schools of this county are doing moderately well. Most of the teachers take considerable interest in their work, and thus stimulate the interest of the patrons. The attendance was reasonably good but should be better. A lack of interest on the part of the patrons is the chief defect in this county, but I think this can be increased by local taxation.

Negligent trustees another obstacle, but this can also be remedied to a limited extent by local taxation. Wherever the

trustees exercise a keen interest in the school, the result of that interest is manifested in both pupils and patrons.

I am glad to state that the board of trustees in several districts has fulfilled the law, and equipped their houses with patent desks.

The colored schools are not in as good shape as they should be, but it is caused by poverty rather than lack of interest.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	58	COLORED . .	11	Total . .	69
-----------	----	-------------	----	-----------	----

Number in which schools were taught for 5 months:

-----------	-------	-------------	-----------	-------

Total . . .	\$1,613 44
-------------	------------

\$153 00

\$13,943

MENEFEE COUNTY.

J. H. WELLS, Superintendent.

Our schools are now all in session. I have visited all of them this year, and note a marked increase in the average attendance and interest manifested by the patrons as well as teacher. The condition of the school-houses is much better than it was two or three years ago.

We are laboring to have better houses, better school furniture and apparatus, etc., and better teachers, both morally and intellectually, than we ever have had, although three-fourths of our schools are being taught by first-class teachers, and the general condition of the schools of this county will compare favorably with the schools of any of the neighboring counties. There is need of great improvement all along the line.

I believe that we ought to have a law enacted that would *compel* negligent parents to send their children to school at least three months each year, from eight years old to fourteen years of age. I think that Kentucky is now ready for such a law.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

MERCER COUNTY.

J. FLOYD TAYLOR, Superintendent.

The schools of this county are in a very flourishing condition. Those who wish to teach know that the time has come when something more is required than to be an uncle, aunt or cousin to secure a certificate or a school.

There is one difficulty that I have to contend with, that is grading. If you will pardon me, I will make this suggestion, which I believe will be much better in grading than under the present system: Have three grades, viz: Primary Grade, which will consist of the beginners to Third Reader; Intermediate Grade, which will consist of Third and Fourth Readers; Advanced Grade, consist of Fourth Reader and on up.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	48	COLORED . .	10	Total . .	58

METCALFE COUNTY.

S. H. WISDOM, Superintendent.

I have the honor to submit herewith, for your consideration, my thirteenth annual and epistolary reports of the common schools of Metcalfe county.

The school-year just closed has been one of marked improvement. Nine good substantial houses have been built and fur-

nished with desks, blackboards, etc., at a cost of more than \$2,100, and fourteen others have been repaired at a cost of not less than \$1,000. The value of school property has increased from \$9,000 to \$12,400. Thirteen thousand and five hundred dollars was distributed for [teaching, repairing, building and for superintendence, which is a pretty fair showing for a pauper county, as this is sometimes styled. Besides, several hundred dollars was subscribed for fuel, board and other purposes, which the trustees kept no accurate account and made no report.

Enrolled in school, 2,397, against 2,500 for the preceding year. Percentage of attendance based upon the census returns 42+, and based on the enrollment, 61 per cent.

All the school-houses in the county but seven are supplied with good desks.

Three new houses are now in course of construction, two of which will be completed in time for the fall term. Fifty are reported as being in "good" condition.

Examinations have been held in strict conformity with the law. The highest aim of the board has been to elevate the teaching profession, striving for a higher grade as to proficiency and morals.

The third-class certificate should be discontinued, and the present law requiring *five* examinations should be amended and have but *two*—June and July.

The Institute of 1894 was conducted by that grand man and scholar, Prof. James H. Fuqua, of Russellville, and the influences brought to bear upon the teaching class will be of lasting benefit, fixing firmly this great truth: "That the true teacher and a lady or a gentleman are inseparably connected."

A County Teachers' Library was established in 1893. It contains eighty-five volumes. There is money sufficient in the treasury to bring the number to one hundred and fifty volumes.

There are nine colored districts in this county. Poverty of the colored citizens is the greatest obstacle to rapid advancement in their schools.

One house is being erected and one has been repaired. Two new districts have been established since my last report was

made. A law allowing the Superintendent to appoint trustees would be beneficial.

No colored Institute was held last year, but think there will be one this. Several associations were held, and the teachers appeared much benefitted. The teachers are well prepared to teach in the colored schools.

I take this opportunity to thank you publicly for the promptness and care, exercised by you and your able, courteous clerical force, given to *all* communications of whatever magnitude which have gone up from this office for adjudication or disposition.

STATISTICS.

Unexpended balance:			
WHITE . .	93 00	COLORED . .	Total . . 93 00
Total . .	\$12,326 00		\$1,197 00 \$13,505 95

MONROE COUNTY.

J. C. CARTER, Superintendent.

I visited all the schools of the county last year, and found them doing very good work, considering the bad school-houses and furniture. I will be able by the time I make my next report to report every school-house in good condition. All dilapidated property is already condemned.

There are election fueds here very often, and a good way to remedy it would be to elect all the trustees annually, so as to prevent premature obligations and obstructions in school.

I find that the second and third-class teachers as a general thing, are doing more good for the county than the first-class teachers, by making greater efforts, using more energy in trying to excel.

I really think that every teacher should be examined annually to keep the first-class teacher awake.

I believe the Superintendent's salary should be increased to a regular annual sum, and payable so that he should not have to work two years before he receive the first year's salary. It is true that his time may not all be employed in his official work, but it is utterly impossible for him to do any thing else that will be pecuniarily profitable to him. No Superintendent's salary should be less than \$600 per year instead of \$250.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	60	COLORED . .	9	Total . .	69

MONTGOMERY COUNTY.

I. N. HORTON, Superintendent.

More than one year ago I came into office and found the schools in moderately good working order. I have been doing all in my power to raise them to a higher standard by condemning houses, apparatus, etc., and encouraging trustees to act in conjunction with me in repairing school-houses, buying the necessary furniture, etc., and I think I have succeeded well. One new school-house, well furnished this year, and a great many repaired and being furnished with the proper apparatus.

Have visited more than half the schools in the county this year, and find most all of them in splendid condition. Teachers seem to be awakening to a higher sense of their duty, having good discipline in their schools, and being careful and painstaking. Altogether, I am sure we are on an up grade. Had a splendid Institute this year, conducted by Profs. Tate and Goodwin; held four County Teachers' Associations last year; am going to have the same number this. The attendance this year seems to be better than I ever knew before. We had more spring and summer schools this season than any former year.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county

WHITE . .	35	COLORED . .	12	Total . .	47

MUHLENBERG COUNTY.

W. W. LEWIS, Superintendent.

The schools of this county are doing remarkably well, but there is still room for improvement. Since my induction into office, I have visited every school house in the county, some of them twice. New houses are being built all over the county, and I hope before long to see a good, comfortable house in each district.

The teachers, with few exceptions, are trying hard to prepare themselves better for their work. Many of them went to school last spring and are preparing to go again. I feel proud of them, for they are an honor to the profession.

If I could get the trustees to co-operate with me, there would not be a drone in the educational hive of this county in one year, but I am sorry to say that in many cases they fail. I think the chairman should be paid a reasonable compensation for his services, for it is useless to expect men to work for nothing.

I think our greatest need is longer sessions, and I favor

county taxation to raise money for that purpose. I think each district should have an eight months' school, or two terms of four months each. This would give all the children a chance to attend.

I find it hard to do much for the colored people. Many of them have to send their children three or four miles to school. They are generally poor, too poor to build and furnish houses, but, in spite of all these difficulties, they are making considerable improvement.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:				
WHITE . .	84	COLORED . .	14	Total . . 98
Number in which schools were taught for 5 months:

NELSON COUNTY.

M. M. YEWELL, Superintendent.

There are in Nelson county seventy-eight school districts, sixty-two of these are white districts; sixteen colored. Of these, twenty-four are first-class districts, twenty-six second class and twenty-eight third-class. Eighty-three teachers were employed in our schools last year: white male 23, female 42, total 65; colored male 3, female 15, total 18; total male 26, female 57, total 83. Of these, forty-six held first-class certificates, twenty-two second-class and fifteen third-class. I visited every school in the county at least once, and found the attendance large, and especially was this the case in those districts visited regularly by the trustees. Trustees have a great deal to do with the success of the schools, and should, in all instances, be the best men in the district. The trustees of this county are taking considerable interest, as is shown by the fact that, during the last year, there have been levies in twenty-two districts for bettering the condition of the school-houses, furniture and apparatus. Nearly all the school-houses are furnished with the best patent desks, and most of them have good blackboards, and good maps and charts.

The standard of qualification on the part of the teachers has been raised by the Board of Examiners to the highest notch. Our law can not be enforced without this. The examiners for this county are thorough-going teachers, and the result is that all those who have been teaching for "revenue only," have quit the business. Rigid examinations have given an impetus to the whole work.

Our Institute last year was held in September, and was a success in every sense of the word. Jno. C. Willis was Instructor. Our Trustees' Day was one of the principal features, and I hope to have nearly all of the trustees of the county present on that day next year.

Almost all of the colored schools are doing very well, but I find the attendance small. I am now making an effort to establish District Libraries, and by the time I make my next report, I hope to have a library in each district.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . . .	62	COLORED . . .	16	Total . . .	78

Total . . . \$6,887 10

\$4,560 00

\$21,447 10

NICHOLAS COUNTY.

RANKIN R. ROSSELL, Superintendent.

On account of my recent induction into office, I can not make as full a report of the educational affairs of this county as I would like; further, on account of incompleteness of returns, as found in Annual Report of Chairman Board of Trustees, I have been compelled to approximate to a certain extent.

I take great pleasure in saying that the schools of Nicholas county are improving in every respect. The teachers are becoming convinced that better preparation is necessary, and we

have had as fine a corps of teachers for the past year as will be found in almost any other county. I can safely say the outlook for this year is still better.

Several new houses have recently been built. There are now four white and one colored in course of construction, according to the latest improved designs. There has been considerable opposition to the levying of a tax, but that opposition disappears with the construction and furnishing of the house, and those who were most arrayed against it are now loudest in its praise.

The private school, that overshadowing rival (generally speaking) of the public school, does not disturb our schools to any extent.

The graded school at Carlisle, built a few years ago, is almost out of debt, and achieving eminent success under the leadership of Prof. W. F. Ramey, who, it might be said, is one of the best instructors in the State, always alive to the interest of the school. Mr. Ramey conducted our Institute last year, and every one speaks in his praise.

Our Teachers' Association, which I caused to be organized last year, has proved to be of great advantage. It causes more interest on the part of patrons in the respective magisterial districts. There are six colored districts in this county, and they are laboring under some disadvantages, but the outlook is encouraging. The teachers are well qualified and do their work well.

I thank you for the promptness with which you have answered all my communications, and I hope that the wide-spread interest you have awakened will be continued.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	43	COLORED . .	6	Total . .	49
-----------	----	-------------	---	-----------	----

-----------	-------------	--	------------	--	-------------

OHIO COUNTY.

Z. H. SHULTZ, Superintendent.

The schools of this county need two things: Local taxation, to supplement the salaries of teachers and District Libraries. Both were agitated with much zeal and enthusiasm at our last Institute. Several plans were suggested for establishing District Libraries, and every teacher pledged his hearty support to the movement. I hope next year to be able to report several libraries and many districts that have voted local taxation. The teachers of Kentucky should have better pay, and I believe the best way to get it is by local taxation. The time has past when teachers can educate themselves by teaching. The State is demanding, and rightfully too, that her teachers be educated before they enter the school room as teachers, and this means, or should mean, increased wages.

Our school rooms are being furnished with modern furniture and apparatus, thereby enabling teachers to do better work.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	114	COLORED . .	8	Total . .	122
-----------	-----	-------------	---	-----------	-----

Number in which schools were taught for 5 months:

WHITE . .	114	COLORED . .	8	Total . .	122
-----------	-----	-------------	---	-----------	-----

Number in which schools were taught for more than 5 months:

Total . .	\$27,129 00		\$1,772 00		\$28,931 00
-----------	-------------	--	------------	--	-------------

OLDHAM COUNTY.

J. L. REEVES. Superintendent.

The schools of Oldham county are in a fairly good condition. We have a better corps of teachers for 1894-95 than at any other time in the past five years. The change in the examinations is driving the time-servers from the field. The greatest evil I find is the three trustee system, bringing prejudice and dissatisfaction from as many factions. The inactivities of the trustees retard the work of the schools. I would suggest one trustee, whose work shall be done in connection with the County Superintendent.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county :

\$7,168 86

OWEN COUNTY.

L. C. LITTRELL, Superintendent.

Our schools are in a growing condition. The boys and girls of our county are doing a great work, and they are doing it right. They are doing a great amount of studying at night; they seem to have taken their education in their own hands.

STATISTICS.

\$19,144 80

OWSLEY COUNTY.

MRS. M. E. HERD, Superintendent.

Owsley has added two more districts to her list this year, giving us a total of thirty-nine. The increase in the population, and the territory being too large, has made it necessary to make new districts. Owsley can furnish fifty-four teachers holding first-class certificates ; twenty-one second-class ; and four third-class. We can not give schools to all our teachers ; have furnished Lee county with a good many. I am proud of Owsley's educational spirit, and I think she ranks with any

of the counties in the State according to size and population. Ten new school-houses are being built, and fifteen have been furnished with desks and school apparatus.

I visited some school-houses last fall where the children had to use umbrellas to keep dry when raining, but the people are waking up and are building and repairing houses.

Our County Judge will not purchase books for the indigent children, and we have many children here whose parents are too poor to buy books.

The colored school is in better condition than some of the whites in the rough parts of the county. They have a new school-house, and have purchased thirty desks, etc. We want a good Normal Instructor here next year for the teachers.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

For other purposes :			
WHITE . .	COLORED . .	Total . .	
Unexpended balance :			
WHITE . .	COLORED . .	Total . .	
Total . . .			\$3,000 00

PENDLETON COUNTY.

B. S. MORRIS, Superintendent.

The situation in this county is daily growing brighter. All our houses are new or newly repaired. With the exception of a very few, every house is conveniently, and in other respects, well located, affording to children not only accessibility, but the inspiration of commanding environments. They are furnished with the best designs of patent seats with which I have any knowledge, and most of them are well supplied with apparatus.

I firmly believe that the providing of better houses and furniture in this county has excited a greater interest among patrons and tax-payers in favor of better educational growth than any other one thing, though it must be admitted that better salaries to teachers and a corresponding rigidity of teachers' examinations, have been productive of inestimable good.

Last year we continued our associational meetings through

the entire year, except the two hot summer months. Our attendance never abated, nor the interest therein, and we look forward for even better results another year along that line.

I am very anxious to have a change in our present trustee system, but will not embody any formulated plan in this report. Suffice it is to say that, while some advantages arise under the present system, it is, I believe, the worst feature of our present law. The responsibility is too scatteringly distributed, affording no great relief from same, and this with no pecuniary consideration nor educational qualifications, makes the entire feature objectionable. I should hail with delight a revision along some such lines as would remove the objections before mentioned, and others too, that, in my judgment, menace, in other respects, the splendid system we now have.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . . .	71	COLORED . . .	2	Total . .	73
-------------	----	---------------	---	-----------	----

Number in which schools were taught for 5 months:

WHITE . .	47	COLORED . .	2	Total . .	49

PERRY COUNTY.

G. P. COMBS, Superintendent.

Notwithstanding the extreme financial pressure under which the people of Perry county have been laboring for several years, there has been a growing interest in the cause of education, and the building, repairing and furnishing of school-houses has not ceased.

Several new school-houses have been built during the last year, and more than half of them furnished with a splendid set of charts, maps, globes, etc.

The small amount of tax allowed to be collected by law for the purpose of building and furnishing school-houses, makes it impossible in many districts to build a good house and furnish it. There are some districts in this county whose school tax for eight or ten years would not be more than the amount

necessary to build and furnish a good school-house. I think there ought to be a law allowing a heavier tax to be levied and collected for school purposes when necessary.

I have, however, overcome that obstacle to a great extent by going among the patrons and working up such an interest as to induce many of the patrons to contribute much besides their tax for the purpose of building and furnishing.

By experience, I have become thoroughly convinced that the success of a County Superintendent in his efforts to have good houses built and furnished, and to advance the cause of education generally, depends principally upon the amount of interest he succeeds in awakening among patrons. When parents become fully awakened to a sense of their duties and responsibilities in regard to the education of their children, they will strive for the good school-houses and good teachers.

Then, and not until then, will the common schools really be a success.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	48	COLORED . .	1	Total . .	49
-----------	----	-------------	---	-----------	----

Number in which schools were taught for 5 months:

PIKE COUNTY.

P. D. BEVINS, Superintendent.

We are still progressing in the "State of Pike." I came into office August 13, 1894, and found the schools in good working order.

During the fall of 1894, I condemned nearly all of the school furniture in the county, and ordered it replaced in accordance with section 78, of the new law. Several districts have been furnished as required, and almost all the others are taking steps ward furnishing. I also condemned several school-houses

and ordered new ones built. Six new ones, all frame, are now complete, and several others are in process of building.

Have visited eighty schools this year, and find increased interest manifested everywhere. The moral and intellectual efficiency of the teachers of the county as a class, has increased at least twenty-five per cent. in the last two years. This accounts, I think, for the increased interest on the part of the patrons, they being no longer disappointed as to educational results. The quickest and surest way to elevate the schools is to elevate the teacher.

While a majority of our trustees are worthy men, a great many may yet, directly or indirectly, sell out the schools or hire the teachers through favoritism.

We had a very successful Institute this year, conducted by Profs. P. Clay and T. J. Kendrick. We had by far the most intelligent talks by teachers ever before given in our County Institutes. A great deal of this is conceded to have been due to the Kentucky State Reading Circle. The minds of the teachers had been waked up.

In general the outlook is encouraging, and we hope to accomplish a great deal within the next few years.

STATISTICS.

Year Ended June 30, 1895.

PULASKI COUNTY.

W. J. DAVIDSON, Superintendent.

I am glad to be able to record the year ended June 30, 1895, as the most successful one in the history of the common schools of Pulaski county. A reference to my report will show an enrollment of eighty-five per cent., and a general average of above fifty-one per cent., the highest mark ever reached in this county. These figures will, I believe, compare favorably with those of any other county in the State, especially when the character of our territory is taken into account.

The teachers in nearly every instance did good work, while a majority of the trustees of the county did excellent service in the way of encouraging attendance and whatever else it took to build up a successful school. The teachers, as a rule, vied with each other in securing attendance and in awakening an interest in school and school work among parents and pupils.

In my annual visitation, I found better methods of teaching in use than ever before. Nearly all teachers read one or more educational journals, while a large percentage are close students of the best professional works on teaching. This can be said of the colored as well as the white teachers.

School-houses and grounds, fencing, water facilities, seats and every thing that it takes to make a school pleasant and comfortable, have been much improved within the last year.

STATISTICS.

Year Ended June 30, 1895.

ROCKCASTLE COUNTY.

ANDREW BAKER, Superintendent.

I visited all the schools during the months of September and October, 1894, and found them encouraging in most districts, but doing badly in others, because of the indifference of the people and inefficiency of the teachers. However, the teachers of Rockcastle county have made quite an improvement by attending school. Several have thus obtained better certificates. The trustees, as a rule, do their duty reasonably well. We have good school-houses in three-fourths of the districts, and others will be built soon. About thirty per cent. have the patent desks.

STATISTICS.

Total . . .	\$14,672 45	\$122 40	\$14,794 85
-------------	-------------	----------	-------------

ROWAN COUNTY.

S. M. Parker, Superintendent.

I visited all the schools during the past year, and found the need of quite a number of new school-houses. I promptly condemned for building, repairing, etc., and there are fourteen houses now under construction.

The rigid examinations are doing a great deal in the way of better teachers, and the backless bench and back boneless teachers are things of the past in Rowan county. The motto of the teachers and school officers is "better teachers, better schools, no fogysim." We desire that the standard of education in this county shall be as high as that in the best counties.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	38	COLORED . .	1	Total . .	39
-----------	----	-------------	---	-----------	----

RUSSELL COUNTY.

J. R. TOMPKINS, Superintendent.

In my first annual visit to the schools, I found them in a first rate condition. We have furnished all the houses in the county with new seats, desks, etc., and have built twenty-five entirely new houses.

The schools of Russell are doing exceedingly well.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:				
WHITE . .	54	COLORED . .	4	Total . . 58
Number in which schools were taught for 5 months:				
WHITE . .	54	COLORED . .	4	Total . . 58

Number in which schools were taught for more than 5 months:

------------------	-------------	------------------

Total . . \$12,603 00	\$504 00	\$13,107 00
-----------------------	----------	-------------

SCOTT COUNTY.

JAMES K. GLENN, Superintendent.

I have little to add to what my statistical report shows. Our schools are running smoothly along, and, I think, accomplishing fair results. Our people are more interested and more tractable under taxation for school improvements than ever before.

Nearly all our houses are in good condition and furnished with modern desks and seats, and more than half of them with maps, charts, etc.

The standard of teachers is being very much improved, due, in my opinion, to the improved examination tests submitted by the State Board of Examiners, and to the Reading Circle work. The average attendance, when compared with census enrollment, seems discouraging, but even that is more apparent than real, as I believe the school age limit should be lowered to eighteen years.

On the whole, the condition of the schools in Scott is encouraging, and we are working on hopefully and earnestly, though quietly.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

SHELBY COUNTY.

JAMES H. BARNETT, Superintendent.

The schools of Shelby county, while not showing as rapid improvement as the friends of education would desire, still show a healthy growth in the right direction. Public sentiment, without which nothing permanent can be done, is becoming

gradually awakened to the needs of better school facilities, and in response to this, we may look for a continued improvement in houses, teachers and attendance.

Our houses are much better, and nearly all are well furnished, and the teaching force is very much improved. The grading done by the County Board of Examiners, is so much closer that a second-class certificate means almost as much as a first-class one a few years ago.

There seems to me to be two things that are especially needed for the improvement of our school system. The first is local taxation for the better payment of teachers and for lengthening the school term, the second, a change in our trustee system.

One trustee for each school would be better than our present system, and perhaps one for each magisterial district with all the trustees from the county composing a board for the employment of teachers and for the final settlement of disputed questions in school matters.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

SIMPSON COUNTY.

A. C. BERRY, Superintendent.

Although Simpson county is quite small in area, yet we feel that we are getting to be "large" in school interest. Up to a few years ago Simpson, like many other counties, was below par in school matters; but under more exacting school laws, better facilities, and a few enthusiastic workers, we are now rapidly moving toward the front rank. Nearly all our school-houses are in good condition, except those for colored pupils, and we note that they are taking steps to have better ones.

Our trustees are not as yet fully aware of the possibilities before us, but they are waking up to better activities and to a quicker sense of their duties and responsibilities. We have

endeavored to elevate the standard in our examinations of teachers, and this has had a good effect.

We have just closed one of the best Teachers' Institutes that has been held here for many years. We had good attendance the whole time, and our teachers seemed to take more interest than usual. I feel that they go away with clearer and better views of their high calling.

We have enrolled about fifty teachers in our Reading Circle, and expect to have as members, before October 1st, 1895, at least 95 per cent. of all the teachers in the county.

May we be allowed to say, in closing, that a great deal of this improvement in educational affairs is due to the energetic administration of our Superintendent of Public Instruction and his co-laborers?

-----------	--	-------------	--	-----------	--

Unexpended balance:

WHITE . .	45 00	COLORED . .		Total . .	45 00
-----------	-------	-------------	--	-----------	-------

Total . . .	\$9,774 00				
-------------	------------	--	--	--	--

			\$3,297 00		
--	--	--	------------	--	--

				\$13,070 75	
--	--	--	--	-------------	--

SPENCER COUNTY.

MRS. LUCY V. WEST, Superintendent.

Since my last report there has been considerable improvement in the way of building, repairing and furnishing. Not all the schools are furnished with maps, charts and globes, but I think when the people are brought to realize how indispensable they are in the work of the school-room, they will be more willing to spend a few dollars in the purchase of the apparatus. Those who have been employed where they have the supplies, say they can not teach successfully without them.

Our colored people are gradually advancing along the line of education, but they have a great deal to contend with on account of poverty. I try to give them every encouragement, and urge upon them the importance of regular attendance. I still favor a compulsory law, for the benefit of those children whose parents are so indifferent and negligent that they will not take advantage of what the State has so generously provided for them.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . . .	31	COLORED . .	9	Total . .	40
-------------	----	-------------	---	-----------	----

TAYLOR COUNTY.

C. P. SANDERS, Superintendent.

Our houses are nearly all in good condition. In a few districts we have poor houses, and the people are not able to build; at least, I have not been able to convince them that they are.

Our seating capacity is ample, unless our Legislature sees fit to give us a "Compulsory School Law," which I would heartily endorse.

Our census report shows about 3,700 pupils (white and colored), out of which we only had an average attendance of forty per cent. Still I think this an increase over last year. And this year the teachers have been offered special inducements to raise the average.

We have an able corps of teachers this time. The only thing we need now is more professional teachers. Too many are making the public schools a stepping-stone to something else. Trustees should be very careful in selecting teachers. Our best schools are those taught by persons who make teaching a profession.

About twenty of our houses were repaired during the year, and about half the districts bought charts, maps, etc., so nearly all districts were in debt during the year. We have trouble getting treasurers under the law of 1893, and hope that the next Legislature will give us a remedy.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	50	COLORED . .	10	Total . .	60
-----------	----	-------------	----	-----------	----

Number in which schools were taught for 5 months:

WHITE . .	47	COLORED . .	10	Total . .	57
-----------	----	-------------	----	-----------	----

Number in which schools were taught for more than 5 months:

WHITE . .	2	COLORED . .		Total . .	2

TODD COUNTY.

McD. O'BRIEN, Superintendent.

I visited most of the schools of my county. I find the efficiency of the schools much improved, and they are getting better equipped each year in the way of better school-houses and school furniture, and I find also, on closer intimacy with parents, that there is a continued and growing interest in the cause of education. I find also that the teachers, as a rule, are improving, and that many of the older teachers are giving up the vocation to give place to the younger teachers, better equipped, and who better voice the progress of events and who can better keep step with the music of to-day; and by way of encouragement, if it is so considered, to our Todd county teachers, permit me to say that both the Democratic and Republican parties gave their nomination for the Legislature to teachers in our common schools, A. S. Johnson being the Democratic nominee, and Walker Wilkins for the Republicans, and in their joint canvass, each nominee is satisfying his party. I will add, also, that three of our teachers this year held State certificates, and that one of these has the best average of any in the State. Our great drawback is the want of attendance, and while the attendance is better than last year, it is nothing to boast of. I find that of applicants for county certificates, we have many more rejections than in former years, and all teachers who contemplate applying for certificates in the future, no matter how remotely, had better be up and doing or they will fail. A word to the wise is sufficient. I hope to stir them up, for we know

how humiliating 'tis to those who have held first-class certificate to get one of lower grade, or worse, still, to be rejected entirely. I pledge myself to do all in my power to promote the great cause in which we are all so much interested.

STATISTICS.

Year Ended June 30, 1895.

TRIGG COUNTY.

MAT. M'KINNEY, Superintendent.

It must be a pleasing reflection to the present State Superintendent to contrast the condition of the Common Schools of Kentucky today with that of years that are gone. Under his administration the standard of the teachers has been raised, the schools better taught, the attendance improved, the erection of new, commodious buildings, with all the modern requirements of the law has increased, and the *per capita* is more than it has been before since the system was organized. All of our schools, both white and colored, are in a better condition than ever before. These pleasant reflections are, however, somewhat impaired when we consider how much remains to be done before we can hope to approach even a state of scanty perfection.

The greatest hindrance to the continued improvement of our schools, remain still as heretofore in the inefficiency of our present trustee system. There are not a dozen trustees in this county, and I am sure we are but little behind the best of our

sister counties, who can, or will, make out a decent report to his County Superintendent, and I can see but the solitary remedy, that of falling back to the *one trustee* system, and requiring the Court of Claims to pay him liberally for each day's service he performs.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	59	COLORED . .	20	Total . .	79

TRIMBLE COUNTY.

L. FRANK ZERFOSS, Superintendent.

The schools of this county are in a very prosperous condition, considering what their condition was some years ago. The professional standing of the teachers is higher than it was two years ago. They read more professional literature, and do more methodical and correct teaching. This, I think, is due to the fact that they are paid according to their certificates. For six years the teachers of this county have met and held regularly, their Teachers' Association, which has had its influence in creating a much better public school sentiment. The people are now demanding good schools. During the past year, five of the school-houses in the county have been repaired and enlarged, and all the houses are substantial and comfortable. The furniture, without any exception is good, and most of the districts in the county have procured maps, charts, globes, etc.

The number of pupils enrolled this year is larger than it has ever been, and the attendance, so far, has exceeded that of last year by at least ten per cent. One of the changes that I most desire to see made, is that of the present trustee system. I

think that three trustees for each magisterial precinct sufficient, and they shall be paid for the service they actually render, they, after consulting the County Superintendent, should employ all the teachers for their respective districts.

STATISTICS.

Unexpended balance:				
WHITE . .	14 00	COLORED . .	11 03	Total . . 25 03
Total	\$8,964 85		\$470 57	\$9,434 92

UNION COUNTY.

W. M. CARR, Superintendent.

There is a steadily growing interest in the schools. The amendments to school law, the Institutes, the Associations and professional reading, have done much good. The patrons, especially the property owners, are just beginning to realize that a comfortable school-house, well furnished, is a profitable investment. Fifty-seven of our sixty-five white schools have houses in good condition, and furnished with patent desks. We have been collecting taxes in about twenty districts each year for building and repairing, and are now turning attention to water in each district. Our schools are not yet generally supplied with globes, maps, etc., but we have been spared the imposition that has been practiced in many counties. Our trustees are our best citizens, and they are generally willing to be taxed for any improvement, but they are too industrious, and have too much confidence in teachers to devote time and labor to the schools.

I think the trustee system might be improved. We have not been able to induce any one to accept the office of treasurer in many districts. The sheriff collects our school taxes in a ma-

jority of the districts, which gives [entire satisfaction, except districts do not get the money as soon as they need it. I am inclined to think the sheriff should collect all school taxes at a compensation of six per cent. I think some county taxation for school purposes would increase interest.

We have a Teachers' Association in each magisterial district.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	68	COLORED . .	11	Total . .	79
-----------	----	-------------	----	-----------	----

-----------	-------------	------------	-------------

WARREN COUNTY.

W. L. CASSADAY, Superintendent.

I visited all the schools of the county, and found most of them doing good work. Of course, teachers who were furnished with good houses, desks, boards, maps, charts, globes, etc., were generally doing the best work.

All white districts will, in a short time, have good houses and desks. The late law concerning teachers' certificates, is stimulating every teacher that thinks of continuing in the profession to prepare for a first-class certificate. The Normal School here had a great many teachers last winter and spring, preparing for examination. Third-class districts do not want third-class teachers, but trustees will sometimes employ relatives, and frequently the teacher is incompetent.

Our institutes were the most interesting and profitable ever held in the county.

We believe that the Chairman of the Board of Trustees should be paid a salary. We should have a compulsory educational law.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	83	COLORED . .	30	Total . .	113
-----------	----	-------------	----	-----------	-----

Number in which schools were taught for 5 months:

WHITE . .	81	COLORED . .	30	Total . .	111
-----------	----	-------------	----	-----------	-----

Number in which schools were taught for more than 5 months:

WHITE . .		COLORED . .		Total . .	
-----------	--	-------------	--	-----------	--

Number of graded common schools in the county:

WHITE . .	1	COLORED . .	1	Total . .	2
-----------	---	-------------	---	-----------	---

II—School-houses and Furniture.

Total . . .	\$21,019 68		\$6,099 70	\$27,119 38
-------------	-------------	--	------------	-------------

WASHINGTON COUNTY.

M. G. LEACHMAN, Superintendent.

The increasing interest in the schools of this county the past year has been very gratifying. The Institute was better attended by the teachers, and more interest taken by the people generally. There is more interest manifested in the education of the children than ever known before, and the demand for better teachers is growing all the time. Teachers realize this fact, and are preparing themselves more efficiently.

Schools were taught in the fifty-seven white school districts and the twelve colored districts. One graded school was organized during the year. What we need most is more good graded schools. The school-houses of the county will compare favorably with those of almost any county in the State. With but few exceptions, every district has a good, comfortable building, well furnished. A large per cent. of them have patent desks.

The colored schools are getting along reasonably well—not able to have as comfortable houses as they would like to have and ought to have.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	57	COLORED . .	12	Total . .	69
-----------	----	-------------	----	-----------	----

Number in which schools were taught for 5 months:

WAYNE COUNTY.

MRS. MOLLIE F. DENNEY, Superintendent.

Wayne county is in a prosperous condition educationally. The increase in attendance is encouraging. Many new houses have been erected, and many old ones have been repaired. The people are becoming more particular as to who are their teachers, and are glad to see the law enforced in regard to examinations.

The attendance at the Institute is better, and a decided improvement in interest in the exercises is manifested by the teachers. About one-half are members of the Reading Circle. A large per cent. are subscribers to one or more good journals. A lively interest is taken in the Teachers' Library. A higher taste for literature is evidently developing. The County Associations are rapidly acquiring the proper spirit. The District Library is being agitated. There are many good teachers among us, but here, as in every other county, are some sluggards. Time and the people alone can remedy this evil. After all that has been done, the one great difficulty yet is to be overcome, and that is how to get and keep the children in school. There are certain children who most need instructing, that no amount of persuasion can hold in the school. There are certain parents so indifferent to their children's welfare, that they are a bane to the public schools. Until the two above classes are regenerated, the efforts of the best teachers are in vain. County Superintendents may do all in their power, but without a compulsory school law, the design of the public school system will be defeated.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . . .	87	COLORED . .	7	Total . .	94

WEBSTER COUNTY.

H. B. WHEELER, Superintendent

The educational interest in this county is still increasing. Our teachers are alive to their work, and many of them are preparing to make teaching their profession.

We have good school-houses in almost all the districts, and about fifty houses are well furnished with globes, maps and charts. Most of the school-houses are furnished with patent desks, and the others will be furnished by next term.

Our Institute was well attended, and pronounced the best we ever had. Our teachers all took a lively interest in the work. The Institute was conducted by Prof. T. J. Coates, of Greenville. I think our County Associations are doing more to arouse an interest among the teachers than even our Institutes.

We have eleven colored schools, and all are taught by good teachers. They will compare favorably with our white teachers. All the teachers of the county, both white and colored, except five, were members of the State Reading Circle last year, and many completed the course and were granted certificates. Viewing the county from an educational standpoint, I think we may expect greater results in the future, as our teachers are doing more reading and study than ever before.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county:

WHITE . .	72	COLORED . .	11	Total . .	83

-----------	-------------	--	------------	--	-------------

WHITLEY COUNTY.

A. T. SILER, Superintendent.

The work in our public schools for the year ending June 30, 1895, was such as to create pleasant relations among teachers, patrons and pupils, and bringing out complimentary expressions from those who are capable of judging.

Besides one general association, we held teachers' meetings in each magisterial district. These meetings aroused much interest among patrons and trustees, as well as among teachers, and in some districts the meetings were held each month during the term of school.

I am glad to say our grade of teachers is growing better, for in this lies the key to the whole situation. I boast that we now have some teachers who are women and men that mean business in every sense of the word. They are working for a higher type of manhood, and would gladly lose sleep and spend much energy to see the boys and girls of Whitley county rank with the most refined in the State.

I must not fail to mention the fact that our trustees—a majority of them—are certainly awake to the interest of their children. They are beginning to realize, too, that every man who carries a first-class certificate does not teach a first-grade school, but the man who works, who studies his pupils, and teaches them to be dilligent, carries the day, and is always considered a good reliable school man.

It is our highest ambition that Whitley county schools may rank with the best in the Commonwealth.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

For other purposes:			
WHITE . .	13	COLORED . .	Total . . 13
Unexpended balance:			
WHITE . .		COLORED . .	Total . .
Total . . .		\$9,090	\$124 \$9,214

WOODFORD COUNTY.

M. B. HIFNER, Superintendent.

I have the honor to submit herewith my annual report of the schools of Woodford county, for the year ending June 30, 1895.

While our schools have not attained that point of excellence we had hoped to reach, we have made many steps along with the educational progress in our grand old Commonwealth. To us, the most favorable indication of progress is the absence of opposition to the improvement of our school property. All our school buildings are comfortable, a few are inviting, many are now supplied with the latest improved apparatus. We erected three new buildings last year at a cost of twelve hundred dollars.

Ninety per cent. of the teachers have had much experience in the school-room, and all hold first-class certificates.

The attendance the past year was more uniform, and apparently the patrons have an increased interest. Many of the districts augmented the school fund by subscriptions, and extended the school term to eight months.

The trustees give as much time to the duties of their office as I could reasonably expect. The system of trustees should be

changed. I would suggest the plan now used in Ohio, have one trustee only in each district, pay him a reasonable salary, and then we may expect him to find time to attend to the duties of his office. If our Legislature will make such changes in the school law as you suggest, I feel assured of a remedy for all its deficiencies.

Each colored district had a well qualified teacher. The greatest hindrance to good schools for the colored people is a want of suitable houses. I cannot meet this difficulty by local taxation. They own very little property, and it is almost impossible to collect the poll-tax, and to erect buildings by subscription, collected from a people indifferent to education, is a herculean task. The trustee system in the hands of colored men is a complete farce. They are ignorant beyond illiteracy, and I am led to believe, are guilty, in some instances, of corruption. For several years a few of the districts have postponed their schools for teachers until January, in order thus to give employment for ten months, or for two schools. I have remonstrated with them, urged them to begin their schools in the fall, but they answered defiantly, they have the legal right to hold their school until January. They can assign no good reason why they do this. I have made an earnest effort, without avail, to find evidence of corruption, but if there is no bribery, I am unable to understand why the trustees should postpone the beginning of their school until January, when they know it is contrary to the express wish of many of the patrons.

I hope our next Legislature will give us a remedy for this wrong, by placing the matter of selecting and employing colored teachers in part, in the hands of the County Board, by making the County Superintendent chairman, and the trustees and examiners a joint board. Even if there is no evidence of corruption, it must be, in some instances, a temptation to a poor, ignorant colored man, to have at his disposal \$250 for the employment of a teacher.

In closing this, my epistolary report, allow me to thank you for the prompt and efficient aid you have so willingly extended me in the discharge of my duties, and also to congratulate you on the marked improvement in the schools of our State under your excellent leadership.

STATISTICS.

Year Ended June 30, 1895.

I—Districts.

Number of districts in the county :

Total . . . \$11,682 04

\$6,047 27

\$17,729 31

FINANCIAL STATEMENT, DISTRIBUTION OF UNUSED BALANCES, ETC., ETC.

[NOTE OF EXPLANATION.—It was designed that the reports of State and City Schools should follow here, but, as is generally understood, long-enforced delay in the publication of this report, by circumstances for which I was in no way responsible, makes its general distribution impossible until about a year will have elapsed after the State College, the State Normal School for Colored Persons, the three State schools for the education of the defective classes, and nearly all the cities of the first four classes, published and disseminated elaborate reports, both general and financial, of their own. This renders it almost wholly useless to include them in this work, and they are accordingly omitted.

E. P. T.]

SCHOOL FUND.

Receipts and Expenditures for the Year Ending June 30, 1894.

I. Auditor's estimate of receipts upon which was based the apportionment for that year:

Balance in Treasury July 1, 1893.	\$314,777 42
Sheriffs' revenue for 1893	1,162,122 57
Interest on old school bond.	79,620 00
Interest on new school bond	36,399 01

No. of Certificate, 982.

(Shares, \$100 each.)

BANK OF KENTUCKY.

Be it known, that the Board of Education, Kentucky, is entitled to seven hundred and thirty-five shares in the capital stock of the Bank of Kentucky, transferable at said bank by the said Board of Education, Kentucky, or by attorney. Witness the seal of the president, directors and company of the Bank of Kentucky, and the signatures of the president and cashier thereof.

LOUISVILLE, 31st August, 1842.

VIRGIL McKNIGHT, *President.*

{ L. S. }

GEO. C. GWATHMEY, *Cashier.*

BOND OF 1870.

\$1,327,000.

COMMONWEALTH OF KENTUCKY.

The Commonwealth of Kentucky is hereby bound to pay to the Board of Education the sum of one million three hundred and twenty-seven thousand dollars, with interest thereon at the rate of six per centum per annum, payable on the thirtieth day of June and thirtieth day of December in each year, from the first day of January, 1870, until the payment of the principal sum, which is payable at the pleasure of the Legislature of Kentucky. The said amount of one million three hundred and twenty-seven thousand dollars, being the sum total of the several bonds heretofore held (and this day canceled) by the Board of Education against the Commonwealth of Kentucky for the benefit of the Common School system of the said Commonwealth, and the additional amount of two hundred and twenty-nine dollars and ninety-nine cents, required to be added under article first, and section second of an act of the General Assembly of Kentucky, entitled "An act to revise, amend and reduce into one the laws relating to the Common Schools of Kentucky," approved March the twenty-first, 1870, in pursuance of which act, and the provisions of the article and section named therein, this Bond is issued.

In testimony of which, I have hereunto set my hand and caused the seal of the Commonwealth aforesaid to be affixed. Done at Frankfort this 18th day of April, in the year of our Lord eighteen hundred and seventy, and the seventy-eighth year of the Commonwealth.

J. W. STEVENSON.

By the Governor :

SAMUEL B. CHUCHILL,
Secretary of State.

\$606,641.03.

BOND OF 1892.

COMMONWEALTH OF KENTUCKY.

The Commonwealth of Kentucky is hereby bound to pay to the State Board of Education the sum of six hundred and six thousand six hundred and forty-one and $\frac{0.3}{100}$ dollars, with interest thereon at the rate of six per cent. per annum, payable semi-annually, on the first day of January and first day of July each year, from the twelfth day of March, eighteen hundred and ninety-two, until the payment of the principal sum, which is payable at the will of the General Assembly of Kentucky. The said amount of six hundred and six thousand six hundred and forty-one $\frac{0.3}{100}$ dollars being Kentucky's share of the direct tax returned to the State, under Act of Congress, approved March second, eighteen hundred and ninety-one, made part of the Common School Fund by section one hundred and eighty-eight, Constitution of Kentucky, and borrowed from the said School Fund in accordance with act of the General Assembly, approved March twelfth, eighteen hundred and ninety-two.

In testimony of which, I have hereunto set my hand and caused the seal of the Commonwealth aforesaid to be affixed. Done at Frankfort this twenty-second day of March, A. D. eighteen hundred and ninety-two, and in the one hundredth year of the Commonwealth.

JOHN YOUNG BROWN,

Governor.

By the Governor :

JOHN W. HEADLEY,

Secretary of State.

THE COMMONWEALTH OF KENTUCKY.

BOND FOR SURPLUS, 1893.

\$381,986.08.

WHEREAS, In accordance with the 186th section of the Constitution of Kentucky, and the acts of the Kentucky Legislature, approved January 25, 1890, and April 3, 1886, and April 15, 1890, and July 6, 1893, this bond is made. The surplus in the Treasury on the 28th day of September, 1891, to the credit of the counties of the State, was on that day made a perpetual obligation against the Commonwealth, and the bond then in existence for surplus is to be canceled, and a new bond issued by the Governor for the whole amount of surplus then in the hands of the Commissioners of the Sinking Fund to the credit of the counties of the State, to wit: Three hundred and seventy-eight thousand nine hundred and forty-six and $\frac{71}{100}$ dollars; and whereas, a surplus of the revenue of the school fund to the amount of three thousand and thirty-nine and $\frac{37}{100}$ dollars is reported by the Auditor as having remained in the Treasury for the year ending June 30, 1890, the said bond of January 1, 1884, is to be increased by the said sum of three thousand and thirty-nine and $\frac{37}{100}$ dollars, the total amount from all sources to each county being as follows, after all changes have been made ordered by all the acts aforesaid, viz:

Now, therefore, this is to certify that the said bond, issued January 1, 1884, for the sum of three hundred and seventy-eight thousand nine hundred and forty-six and $\frac{71}{100}$ dollars, has this day been canceled in pursuance of said section 186th of the Constitution and the aforesaid statutes, and that the Commonwealth of Kentucky is bound to pay to the Board of Education of Kentucky the aggregate principal and interest of said bond of three hundred and seventy-eight thousand nine hundred and forty-six and $\frac{71}{100}$ dollars, canceled as aforesaid, together with the sum of three thousand and thirty-nine and $\frac{37}{100}$ dollars (\$3,039 37), in all the sum of three hundred and eighty-one thousand nine hundred and eighty-six and $\frac{98}{100}$ dollars, with interest thereon at the rate of six per cent. per annum, payable annually, on the 1st day of July, at the Treasury of Kentucky (this bond is not transferable), that being the aggregate amount found to be due the said counties not called for, for purposes of education, and this bond is issued in pursuance of the provisions of said section 186th of the Constitution and aforesaid statutes.

In testimony of which I, John Young Brown, Governor of said Commonwealth, have hereunto set my hand and caused the seal of the Commonwealth to be affixed. Done at the city of Frankfort this 7th day of July, 1893.

{ SEAL }

JOHN YOUNG BROWN.

By the Governor:

JOHN W. HEADLEY, *Secretary of State.*

* By special act of the Legislature, approved January, 1890, Knott county was allotted \$645.93 from Floyd county; \$313.07 from Breathitt; \$672.54 from Perry, and \$1,195.09 from Letcher, being a total of \$2,826.63.

By section 13 of act, approved July 6, 1893, S. P. I. is directed to apportion equitably the county fund where counties have been divided by the Legislature, and, in pursuance to same, the Ballard county fund of \$5,404.14 is divided with Carlisle county according to school population, Ballard retaining \$2,683.79, and Carlisle getting \$2,720.35; also by section 13 of act, approved July 6, 1893, Washington county is, by the act, approved April 15, 1890, estimated by the records of this office to have lost 374 pupil children, and that 150 went to Mercer, and 224 to Anderson counties, wherefore, \$93.50 was transferred from Washington county, and \$56 given to Anderson, and \$37.50 to Mercer.

LIST OF COUNTY SUPERINTENDENTS.

* An act, approved March 21, 1870, changes the beginning of the school year from January 1st to July 1st of each year. The school year 1869, as did the previous school years, corresponded with the calendar year, from January 1st to December 31st, inclusive. Then, under the new school law, followed a suspension of the Common Schools until July 1, 1870, when the new school year began, extending to July 1, 1871. It was, accordingly, rated and recorded as 1871; whence, the omission of the year 1870, in the record.

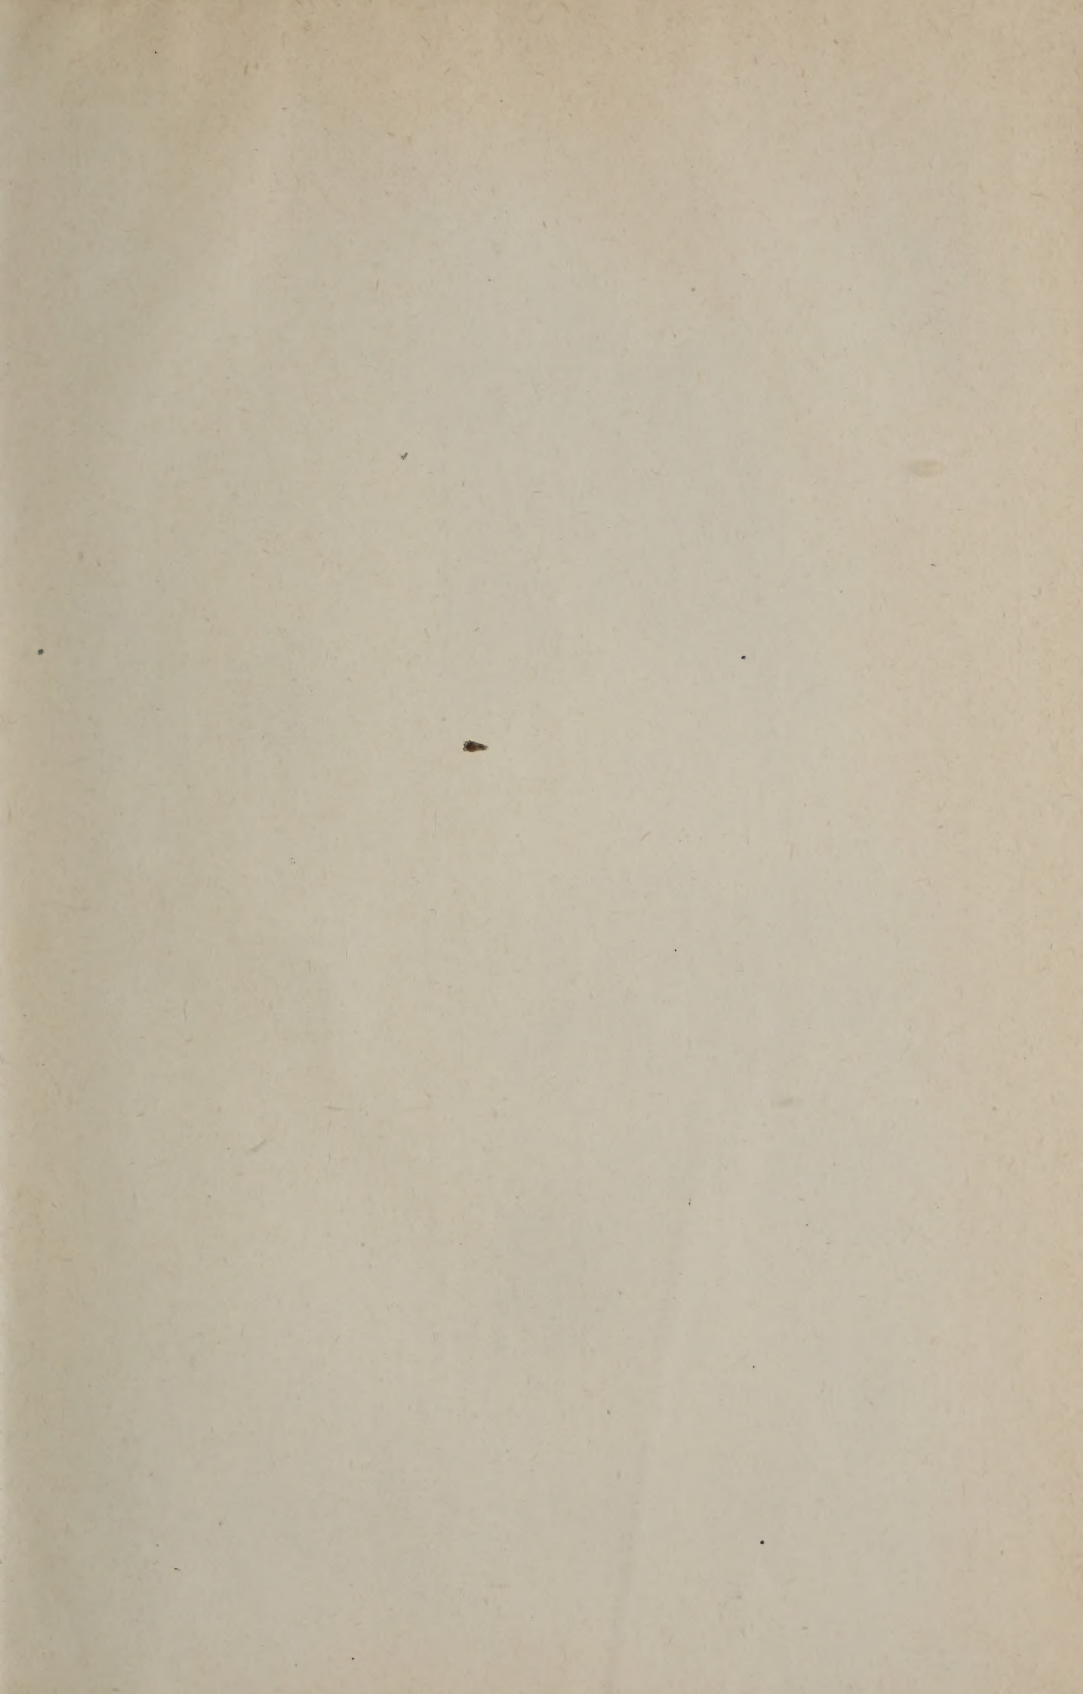

† Equalization of the *per capita*.

TABLE EXHIBITING THE CENSUS, THE FINANCIAL CONDITION, THE PER CAPITA, ETC., OF THE COLORED SCHOOL SYSTEM FOR EACH YEAR SINCE ITS FOUNDATION.

	Census Report to Superintendent by Commissioners.	Increase.	School Fund.	Increase.	Decrease.	Per Capita.	Number of Counties Represented.	Number of School Districts.
